

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, DC 20549**

**FORM 10-Q**

(Mark One)

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended **March 31, 2019**

OR

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: **001-38484**

**Spirit of Texas Bancshares, Inc.**

(Exact name of registrant as specified in its charter)

**Texas**

(State or other jurisdiction of  
incorporation or organization)

**1836 Spirit of Texas Way  
Conroe, TX**

(Address of principal executive offices)

**90-0499552**

(I.R.S. Employer  
Identification No.)

**77301**

(Zip Code)

**Registrant's telephone number, including area code: (936) 521-1836**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Non-accelerated filer

Accelerated filer

Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, no par value	STXB	The NASDAQ Stock Market LLC

As of May 3, 2019, the registrant had 13,780,232 shares of common stock, no par value, outstanding.

**SPIRIT OF TEXAS BANCSHARES, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(Unaudited)**

**NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

***Nature of Operations***

Spirit of Texas Bancshares, Inc. (the “Holding Company” or “Company”) is a bank holding company headquartered in Conroe, Texas that provides, through its bank subsidiary, a variety of financial services to individuals and corporate customers in Texas, which are primarily agricultural, light industrial and commercial areas.

The Company consummated the underwritten initial public offering of its common stock in May 2018. In connection with the initial public offering, the Company issued and sold 2,300,000 shares of its common stock, including 300,000 shares of common stock sold pursuant to the underwriters’ full exercise of their option to purchase additional shares, at an offering price of \$21.00 per share, for aggregate gross proceeds of \$48.3 million before deducting underwriting discounts and offering expenses, and aggregate net proceeds of \$42.1 million after deducting underwriting discounts and offering expenses.

***Basis of Presentation***

The consolidated financial statements include the accounts of the Holding Company and the accounts of its wholly-owned subsidiary, Spirit of Texas Bank SSB (the “Bank”). All significant intercompany balances and transactions have been eliminated in consolidation.

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Operating results for the period ended March 31, 2019 are not necessarily indicative of the results that may be expected for the year ending December 31, 2019 and should be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2018 previously filed with the Securities and Exchange Commission (“SEC”) in the Company’s Annual Report on Form 10-K.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for the fair presentation of these consolidated financial statements have been included. The preparation of financial statements in conformity with these accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and income and expense during the reporting periods and the related disclosures. Although management’s estimates and assumptions are based on current expectations, estimates, forecasts and projections about future performance of the Company, such estimates and assumptions are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult for the Company to assess. Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year or any future period.

***Accounting Policies Recently Adopted and Pending Accounting Pronouncements***

*Accounting Standards Update (ASU) 2019-04, “Codification Improvements to Topic 326, Financial Instruments-Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments”* – issued in April 2019, ASU No. 2019-04 clarifies a number of issues discussed at the June 2018 and November 2018 Credit Losses Transition Resource Group meetings. The clarifications address a variety of identified issues including but not limited to the treatment of accrued interest receivable as it relates to the allowance for credit losses, transfers between loan classifications and categories, recoveries, and using projections of future interest rate environments in expected cash flow calculations. Management is evaluating these clarifications concurrently with our assessment of ASU 2016-13.

*ASU 2018-15, “Intangibles – Goodwill and Other – Internal Use Software”* – issued in August 2018, ASU No. 2018-15 aligns the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software. The amendments of ASU 2018-15 are effective for public entities for interim and annual periods beginning after December 15, 2019 and for other entities for periods beginning after December 15, 2020. Management adopted ASU 2018-15 as of January 1, 2019; adoption did not have an impact on the Company’s consolidated financial statements.

*ASU 2018-13, “Fair Value Measurement Disclosure Framework”* – issued in August 2018, ASU No. 2018-13 modifies the disclosure requirements on fair value measurements outlined in Topic 820, Fair Value Measurements. Specifically the amendments in the ASU remove the requirements to disclose the amount and reasons for transfers between fair value hierarchy levels, the policy for timing of transfers between levels, the valuation processes for Level 3 fair value measurements, and for nonpublic entities, disclosure of the changes in unrealized gains and losses for the period included in earnings for recurring Level 3 fair value

measurements. Additionally, the ASU adds disclosure requirements regarding changes in unrealized gains and losses for the period included in other comprehensive income related to Level 3 fair value measurements, and disclosure of the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements. The amendments of ASU 2018-13 are effective for all entities for interim and annual periods beginning after December 15, 2019. Management adopted the provisions of this ASU removing fair value disclosure requirements as of December 31, 2018 as early adoption of the removal provisions was allowed and will adopt the remaining provisions of the ASU as of the effective date.

*ASU 2018-09, "Codification Improvements."* - issued in July 2018, ASU No. 2018-09 makes changes to a variety of topics to clarify, correct errors in, or make minor improvements to the Accounting Standards Codification. The majority of the amendments in ASU 2018-09 will be effective in annual periods beginning after December 15, 2018. ASU 2018-09 is not expected to have a material impact on the Company's consolidated financial statements.

*ASU 2018-07, "Compensation-Stock Compensation."* - issued in June 2018, ASU 2018-07 expands the scope of ASC 718 to include share-based payment transactions for acquiring goods and services from nonemployees. The amendments also clarify that ASC 718 does not apply to share-based payments used to provide either financing to the issuer or awards granted in conjunction with selling goods or services to customers under a contract subject to ASC 606, Revenue from Contracts with Customers. The amendments of ASU 2018-07 are effective for public entities for interim and annual periods beginning after December 15, 2018 and for other entities for periods beginning after December 15, 2019. Management adopted ASU 2018-07 as of January 1, 2019; adoption did not have an impact on the Company's consolidated financial statements.

*ASU 2017-08, "Receivables-Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities."* Issued in March 2017, ASU 2017-08 amends the amortization period for certain purchased callable debt securities held at a premium. In particular, the amendments in ASU 2017-08 require the premium to be amortized to the earliest call date. The amendments do not, however, require an accounting change for securities held at a discount; instead, the discount continues to be amortized to maturity. Notably, the amendments in this ASU more closely align the amortization period of premiums and discounts to expectations incorporated in market pricing on the underlying securities. Securities within the scope of ASU 2017-08 are purchased debt securities that have explicit, non-contingent call features that are callable at fixed prices and on preset dates. The amendments of ASU 2017-08 become effective for public entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018 and for other entities for periods beginning after December 15, 2019. Management adopted ASU 2017-08 as of January 1, 2019; adoption did not have an impact on the Company's consolidated financial statements.

*ASU 2017-04, "Intangibles-Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment."* Issued in January 2017, ASU 2017-04 simplifies the manner in which an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. In computing the implied fair value of goodwill under Step 2, an entity, prior to the amendments in ASU 2017-04, had to perform procedures to determine the fair value at the impairment testing date of its assets and liabilities, including unrecognized assets and liabilities, in accordance with the procedure that would be required in determining the fair value of assets acquired and liabilities assumed in a business combination. However, under the amendments in ASU 2017-04, an entity should (1) perform its annual or interim goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount, and (2) recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value, with the understanding that the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, ASU 2017-04 removes the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails such qualitative test, to perform Step 2 of the goodwill impairment test. ASU 2017-04 is effective prospectively for public entities for annual, or any interim, goodwill impairment tests in fiscal years beginning after December 15, 2019 and for all other entities for impairment tests in fiscal years beginning after December 15, 2021. Management will adopt this ASU using the public company effective date as early adoption is permitted and will continue to evaluate the impact this ASU will have on the consolidated financial statements through its effective date; however, the adoption of ASU 2017-04 is not expected to have a material impact on the Company's consolidated financial statements.

*ASU 2017-01, "Business Combinations (Topic 805)—Clarifying the Definition of a Business."* Issued in January 2017, ASU 2017-01 clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses, which determines whether goodwill should be recorded or not. The amendments in ASU No. 2017-01 provide a screen to determine when a set of assets and activities (collectively, a "set") is not a business. The screen requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This screen reduces the number of transactions that need to be further evaluated. If, however, the screen is not met, then the amendments in ASU 2017-01 require that to be considered a business, a set must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output and remove the evaluation of whether a market participant could replace missing elements. The revised definition will result in more transactions being recorded as asset acquisitions or dispositions as opposed to business acquisitions or dispositions. The amendments of ASU 2017-01 are effective for public business entities for fiscal years beginning after December 15, 2017, and for private companies for fiscal years beginning after December 15, 2018. Management adopted ASU 2017-01 as of January 1, 2019; adoption did not have an impact on the Company's consolidated financial statements.

In October 2016, the FASB issued *ASU No. 2016-16, "Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory."* The objective of issuing this ASU is to improve the accounting for the income tax consequences of intra-entity transfers of assets other than inventory. Current GAAP prohibits the recognition of current and deferred income taxes for an intra-entity asset transfer until the asset has been sold to an outside party. This prohibition on recognition is an exception to the principle of comprehensive recognition of current and deferred income taxes in GAAP. As such, the Board decided that an entity should recognize the income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. Consequently, the amendments in this guidance eliminate the exception for an intra-entity transfer of an asset other than inventory. The amendments of this ASU are effective for *public business entities* for fiscal years beginning after December 15, 2017, and for private companies for fiscal years beginning after December 15, 2018. Early adoption is permitted for all entities as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued or made available for issuance. That is, earlier adoption should be in the first interim period if an entity issues interim financial statements. Management adopted ASU 2016-16 as of January 1, 2019; adoption did not have an impact on the Company's consolidated financial statements.

*ASU 2016-13, "Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments."* Issued in June 2016, ASU 2016-13 will add FASB ASC Topic 326, "Financial Instruments-Credit Losses" and finalizes amendments to FASB ASC Subtopic 825-15, "Financial Instruments-Credit Losses." The amendments of ASU 2016-13 are intended to provide financial statement users with more decision-useful information related to expected credit losses on financial instruments and other commitments to extend credit by replacing the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to determine credit loss estimates. The amendments of ASU 2016-13 eliminate the probable initial recognition threshold and, in turn, reflect an entity's current estimate of all expected credit losses. ASU 2016-13 does not specify the method for measuring expected credit losses, and an entity is allowed to apply methods that reasonably reflect its expectations of the credit loss estimate. Additionally, the amendments of ASU 2016-13 require that credit losses on available for sale debt securities be presented as an allowance rather than as a write-down. The amendments of ASU 2016-13 were originally effective for public entities for interim and annual periods beginning after December 15, 2019 and for all other entities for periods beginning after December 15, 2020. Issued in November 2018, ASU 2018-19 *Codification Improvements to Topic 326, Financial Instruments-Credit Losses*, alters the effective date of ASU 2016-13 for private companies. Under the provisions of ASU 2018-19, ASU 2016-13 is now effective for fiscal years beginning after December 15, 2021 including interim periods within those years for non-public business entities. Earlier application is permitted for interim and annual periods beginning after December 15, 2018. Management has elected to adopt this ASU using the updated private company effective date and is currently evaluating the impact this ASU will have on the consolidated financial statements and that evaluation will depend on economic conditions and the composition of the Company's loan and lease portfolio at the time of adoption.

*ASU 2016-02, "Leases (Topic 842)."* Issued in February 2016, ASU 2016-02 was issued by the FASB to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and by disclosing key information about leasing arrangements. ASU 2016-02 will, among other things, require lessees to recognize a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. ASU 2016-02 does not significantly change lease accounting requirements applicable to lessors; however, the ASU contains some targeted improvements that are intended to align, where necessary, lessor accounting with the lessee accounting model and with the updated revenue recognition guidance issued in 2014. The amendments of ASU 2016-02 are effective for public entities for interim and annual periods beginning after December 15, 2018 and for other entities for periods beginning after December 15, 2019. The adoption of this ASU will result in an increase to the Consolidated Balance Sheets for right-of-use assets and associated lease liabilities for operating leases in which the Company is the lessee. Under current accounting standards, all of the Company's leases are classified as operating leases and, as such, are not recognized on the Company's Consolidated Balance Sheet. Additionally, in July 2018, the FASB issued ASU No. 2018-10, *Codification Improvements to Topic 842, Leases* and ASU No. 2018-11, *Leases, Targeted Improvements*. The amendments in these updates provide additional clarification and implementation guidance on certain aspects of ASU 2016-02 and have the same effective and transition requirements as ASU 2016-02. Specifically, ASU 2018-11 creates an additional transition method option allowing entities to record a cumulative effect adjustment to opening retained earnings in the year of adoption. In December 2018, the FASB further issued ASU 2018-20, *Leases (Topic 842) Narrow-Scope Improvements for Lessors*. The amendments in this update permits lessors to make an accounting policy election to not evaluate whether certain sales taxes and other similar taxes are lessor costs or lessee costs and instead account for the costs as if they were lessee costs. Additionally, the amendment requires lessors to exclude from variable payments, and therefore revenue, lessor costs paid by lessees directly to third parties. The amendments also require lessors to account for costs excluded from the consideration of a contract that are paid by the lessor and reimbursed by the lessee as variable payments. In March 2019, the FASB also issued ASU 2019-01, *Leases (Topic 842) Codification Improvements*, to further clarify certain identified issues regarding implementation of ASU 2016-02. Specifically, the amendments in ASU 2019-01 clarify the determination of fair value of underlying assets by lessors that are not manufacturers or dealers, the cash flow presentation of sales-type or direct financing leases, and transition disclosures for interim periods. Management will adopt these ASUs using the private company effective date of January 1, 2020 and is currently evaluating the impact to the consolidated financial statements and related method of adoption, specifically, we are in the process of determining an appropriate discount rate to record identified right-of-use assets.

ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)." Issued in May 2014, ASU 2014-09 will add FASB ASC Topic 606, "Revenue from Contracts with Customers," and will supersede revenue recognition requirements in FASB ASC Topic 605, "Revenue Recognition," as well as certain cost guidance in FASB ASC Topic 605-35, "Revenue Recognition – Construction-Type and Production-Type Contracts." ASU 2014-09 provides a framework for revenue recognition that replaces the existing industry and transaction specific requirements under the existing standards. ASU 2014-09 requires an entity to apply a five-step model to determine when to recognize revenue and at what amount. The model specifies that revenue should be recognized when (or as) an entity transfers control of goods or services to a customer at the amount in which the entity expects to be entitled. Depending on whether certain criteria are met, revenue should be recognized either over time, in a manner that depicts the entity's performance, or at a point in time, when control of the goods or services are transferred to the customer. ASU 2014-09 provides that an entity should apply the following steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when, or as, the entity satisfies a performance obligation. In addition, the existing requirements for the recognition of a gain or loss on the transfer of non-financial assets that are not in a contract with a customer are amended to be consistent with the guidance on recognition and measurement in ASU 2014-09. The amendments of ASU 2014-09 may be applied either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application. If the transition method of application is elected, the entity should also provide the additional disclosures in reporting periods that include the date of initial application of (1) the amount by which each financial statement line item is affected in the current reporting period, as compared to the guidance that was in effect before the change, and (2) an explanation of the reasons for significant changes. ASU 2015-14, "Revenue from Contracts with Customers (Topic 606)-Deferral of the Effective Date," issued in August 2015, defers the effective date of ASU 2014-09 by one year. ASU 2015-14 provides that the amendments of ASU 2014-09 become effective for public business entities for fiscal years beginning after December 15, 2017, and for private companies for fiscal years beginning after December 15, 2018. All subsequently issued ASU's which provide additional guidance and clarifications to various aspects of FASB ASC Topic 606 will become effective when the amendments of ASU 2014-09 become effective. These subsequently issued ASU's include ASU 2016-08 "Revenue from Contracts with Customers (Topic 606)-Principal versus Agent Considerations," ASU 2016-10 "Revenue from Contracts with Customers (Topic 606)-Identifying Performance Obligations and Licensing," and ASU 2016-12 "Revenue from Contracts with Customers (Topic 606)-Narrow Scope Improvements and Practical Expedients." These amendments clarify the main provisions of ASU-2014-09 with respect to specific revenue types based upon implementation questions submitted. Specifically, revenue in which a third party satisfies a portion of the performance obligations, revenue from licensing activities, and the assessment of collectability, treatment of sales taxes, non-cash consideration, and contract modifications at transition. Management adopted ASU 2014-09 as of January 1, 2019; adoption did not have a material impact on the measurement or recognition of revenue in the Company's consolidated financial statements. Refer to Note 2 for additional discussion.

## NOTE 2. REVENUE RECOGNITION

On January 1, 2019, the Company adopted ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*, and all subsequent ASUs that modified Topic 606. As stated in Note 1, *Summary of Significant Accounting Policies*, the implementation of the new standard did not have a material impact on the measurement or recognition of revenue; as such, a cumulative effect adjustment to opening retained earnings was not deemed necessary. Results for reporting periods beginning after January 1, 2019 are presented under Topic 606, while prior period amounts were not adjusted and continue to be reported in accordance with our historic accounting under Topic 605.

Topic 606 does not apply to revenue associated with financial instruments, including revenue from loans and securities. In addition, certain non-interest income streams such as fees associated with mortgage servicing rights, financial guarantees, derivatives, and certain credit card fees are also not in scope of the new guidance. Topic 606 is applicable to non-interest revenue streams, such as deposit related fees, interchange fees, merchant income, and brokerage and investment advisory service commissions. However, the recognition of these revenue streams did not change significantly upon adoption of Topic 606. Substantially all of the Company's revenue is generated from contracts with customers. Non-interest revenue streams in-scope of Topic 606 are discussed below.

### *Core Service Charges on Deposit Accounts*

Core service charges on deposit accounts consist of account analysis fees (i.e., net fees earned on analyzed business and public checking accounts) and monthly service fees. The Company's performance obligation for account analysis fees and monthly service fees is generally satisfied, and the related revenue recognized, over the period in which the service is provided. Payment for service charges on deposit accounts is primarily received immediately or in the following month through a direct charge to customers' accounts.

### *Transaction Based Fee Income on Deposit Accounts*

Transaction based fee income on deposit accounts consists of variable revenue streams associated with activities which a deposit account holder may initiate on a transaction by transaction basis. The majority of transaction based fee income arises from interchange revenue received when deposit customers use a debit card for a point of sale transaction over a third party card payment network. Interchange revenue is recorded net of related interchange expenses in the month in which the transaction occurs.

Merchant services income is realized through a third party service provider who is contracted by the Bank under a referral arrangement. Such fees represent fees charged to merchants to process their debit card transactions, in addition to account management fees. The third party service provider also issues credit cards as private label in the Company's name in exchange for a referral fee. Fees are earned and recorded in the same period as the referral occurs and the card is issued.

Other transaction based service charges on deposit accounts include revenue from processing wire transfers, issuing cashier's checks, processing check orders, and renting safe deposit boxes. The Company's performance obligation related to these service charges is largely satisfied, and related revenue recognized, when the services are rendered or upon completion. Payment is typically received immediately or charged to the customers' account in the period the service is provided. Safe deposit box rental fees are charged to the customer on an annual basis and recognized upon receipt of payment. The Company determined that since rentals and renewals occur fairly consistently over time, revenue is recognized on a basis consistent with the duration of the performance obligation.

#### *Mortgage Referral Fees*

Mortgage referral fees are also transaction based fee income. The Company's performance obligation for fees is largely satisfied when the services are rendered or upon completion. Payment is typically received immediately.

The following presents non-interest income, segregated by revenue streams in-scope and out-of-scope of Topic 606, for the three months ended March 31, 2019 and 2018:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
<b>Non-Interest Income</b>		
<i>In-scope of Topic 606</i>		
Deposit accounts core service charges	\$ 112	\$ 67
Deposit account transaction based fee income	631	295
Mortgage referral fees	110	156
Non-Interest Income (in-scope of Topic 606)	853	518
Non-Interest Income (out-of-scope of Topic 606)	2,204	2,070
<b>Total Non-Interest Income</b>	<b>\$ 3,057</b>	<b>\$ 2,588</b>

#### *Contract Balances*

A contract asset balance occurs when an entity performs a service for a customer before the customer pays consideration (resulting in a contract receivable) or before payment is due (resulting in a contract asset). A contract liability balance is an entity's obligation to transfer a service to a customer for which the entity has already received payment (or payment is due) from the customer. The Company's non-interest revenue streams are largely based on transactional activity, or standard month-end revenue accruals. Consideration is often received immediately or shortly after the Company satisfies its performance obligation and revenue is recognized. The Company does not typically enter into long-term revenue contracts with customers, and therefore, does not experience significant contract balances. The Company did not have any significant contract balances at March 31, 2019 or December 31, 2018.

#### *Contract Acquisition Costs*

In connection with the adoption of Topic 606, an entity is required to capitalize, and subsequently amortize into expense, certain incremental costs of obtaining a contract with a customer if these costs are expected to be recovered. The incremental costs of obtaining a contract are those costs that an entity incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained (for example, sales commission). The Company utilizes the practical expedient which allows entities to immediately expense contract acquisition costs when the asset that would have resulted from capitalizing these costs would have been amortized in one year or less. Upon adoption of Topic 606, the Company did not capitalize any contract acquisition cost.

### **NOTE 3. BUSINESS COMBINATIONS**

#### **Comanche National Corporation**

On November 14, 2018, Spirit of Texas Bancshares, Inc. (the "Company" or "Spirit") completed its acquisition of Comanche National Corporation and its subsidiary, The Comanche National Bank (together, "Comanche"). This transaction resulted in 8 additional branches in the North Texas region. The Company issued 2,142,811 shares of its common stock as well as a net cash payment to Comanche shareholders of \$12.2 million for all outstanding stock of Comanche and resulted in 100% ownership interest.

The Company has recognized total goodwill of \$13.8 million which is calculated as the excess of both the consideration exchanged and liabilities assumed compared to the fair market value of identifiable assets acquired. The fair value of the consideration exchanged related to the Company's common stock was calculated based upon the closing market price of the Company's common stock as of November 14, 2018. None of the goodwill recognized is expected to be deductible for income tax purposes.

The Company incurred expenses related to the acquisition of approximately \$1.7 million for the three months ended March 31, 2019 which are included in noninterest expense in consolidated statements of income. The Company did not incur any expenses related to the acquisition during the three months ended March 31, 2018.

Non-credit impaired loans had a fair value of \$116.2 million at the acquisition date and contractual balance of \$117.2 million. As of the acquisition date, the Company expects that an insignificant amount of the contractual balance of these loans will be uncollectible. The difference of \$946 thousand will be recognized into interest income as an adjustment to yield over the life of the loans.

Estimated fair values of the assets acquired and liabilities assumed in this transaction as of the closing date are as follows:

Assets of acquired bank (Dollars in thousands):	
Cash and cash equivalents	\$ 57,135
Securities available for sale	144,735
Loans held for investment	116,220
Premises and equipment, net	6,634
Other real estate owned	33
Goodwill	13,768
Core deposit intangible	5,988
Other assets	11,712
Total assets acquired	<u>\$ 356,225</u>
Liabilities of acquired bank:	
Deposits	\$ 297,778
Trust preferred securities	2,811
Other liabilities	2,698
Total liabilities assumed	<u>\$ 303,287</u>
Common stock issued at \$18.99 per share	<u>\$ 40,692</u>
Cash paid	<u>\$ 12,246</u>

As of March 31, 2019, management is still evaluating the fair values of other assets and other liabilities. Amounts shown above are preliminary and the Company expects to finalize these values by the second quarter of 2019.

Revenues and earnings of the acquired company since the acquisition date have not been disclosed as Comanche was merged into the Company and separate financial information is not readily available.

#### NOTE 4. INVESTMENT SECURITIES

The amortized cost, gross unrealized gains and losses and approximate fair values of securities available for sale are as follows:

March 31, 2019	Amortized Cost	Unrealized		Fair Value
		Gains	Losses	
(Dollars in thousands)				
Available for sale:				
U.S. Government agencies	\$ 2,016	\$ —	\$ 32	\$ 1,984
State and municipal obligations	9,420	445	—	9,865
Residential mortgage-backed securities	111,455	2,583	422	113,616
Corporate bonds and other debt securities	5,656	—	53	5,603
Total available for sale	<u>\$ 128,547</u>	<u>\$ 3,028</u>	<u>\$ 507</u>	<u>\$ 131,068</u>

December 31, 2018	Amortized Cost	Unrealized		Fair Value
		Gains	Losses	
(Dollars in thousands)				
Available for sale:				
U.S. Government agencies	\$ 2,015	\$ —	\$ 81	\$ 1,934
State and municipal obligations	17,201	847	—	18,048
Residential mortgage-backed securities	152,232	2,614	872	153,974
Corporate bonds and other debt securities	5,667	—	162	5,505
Total available for sale	<u>\$ 177,115</u>	<u>\$ 3,461</u>	<u>\$ 1,115</u>	<u>\$ 179,461</u>

Taxable interest and dividends on investment securities were \$1.1 million and \$214 thousand for the three months ended March 31, 2019 and 2018, respectively. Tax-exempt interest and dividends on investment securities were \$108 thousand for the three months ended March 31, 2019. There were no tax-exempt interest or dividends on investment securities for the three months ended March 31, 2018.

There were \$117.5 million and \$106.6 million securities pledged to collateralize public funds at March 31, 2019 and December 31, 2018, respectively.

The amortized cost and estimated fair value of securities available for sale, by contractual maturity, are as follows:

March 31, 2019	Amortized Cost	Fair Value
Available for sale:		
Due in one year or less	\$ 127	\$ 128
Due after one year through five years	7,170	7,105
Due after five years through ten years	1,747	1,775
Due after ten years	8,048	8,444
Residential mortgage-backed securities	111,455	113,616
Total available for sale	<u>\$ 128,547</u>	<u>\$ 131,068</u>

For purposes of the maturity table, residential mortgage-backed securities, the principal of which are repaid periodically, are presented as a single amount. The expected lives of these securities will differ from contractual maturities because borrowers may have the right to prepay the underlying loans with or without prepayment penalties.

The following tables present the estimated fair values and gross unrealized losses on investment securities available for sale, aggregated by investment category and length of time individual securities have been in a continuous unrealized loss position as of the periods presented:

March 31, 2019	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
(Dollars in thousands)						
Available for sale:						
U.S. Government agencies	\$ —	\$ —	\$ 1,984	\$ 32	\$ 1,984	\$ 32
State and municipal obligations	—	—	—	—	—	—
Residential mortgage-backed securities	—	—	24,015	422	24,015	422
Corporate bonds and other debt securities	—	—	5,603	53	5,603	53
Total available for sale	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 31,602</u>	<u>\$ 507</u>	<u>\$ 31,602</u>	<u>\$ 507</u>

December 31, 2018	Less than 12 Months		12 Months or More		Total	
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
(Dollars in thousands)						
Available for sale:						
U.S. Government agencies	\$ —	\$ —	\$ 1,934	\$ 81	\$ 1,934	\$ 81
State and municipal obligations	—	—	—	—	—	—
Residential mortgage-backed securities	1	—	25,479	872	25,480	872
Corporate bonds and other debt securities	—	—	5,505	162	5,505	162
Total available for sale	<u>\$ 1</u>	<u>\$ —</u>	<u>\$ 32,918</u>	<u>\$ 1,115</u>	<u>\$ 32,919</u>	<u>\$ 1,115</u>

At March 31, 2019, the Company's securities portfolio consisted of 189 securities, 45 of which were in an unrealized loss position. All of the 45 securities in an unrealized loss position at March 31, 2019 were in an unrealized loss position for more than 12 months. The unrealized losses for these securities resulted primarily from changes in interest rates and spreads.

The Company monitors its investment securities for other-than-temporary-impairment ("OTTI"). Impairment is evaluated on an individual security basis considering numerous factors, and its relative significance. The Company has evaluated the nature of unrealized losses in the investment securities portfolio to determine if OTTI exists. The unrealized losses relate to changes in market interest rates and specific market conditions that do not represent credit-related impairments. Furthermore, the Company does not intend to sell nor is it more likely than not that it will be required to sell these investments before the recovery of their amortized cost basis. Management has completed an assessment of each security in an unrealized loss position for credit impairment and has determined that no individual security was other-than-temporarily impaired at March 31, 2019. The following describes the basis under which the Company has evaluated OTTI:

*U.S. Government Agencies and Residential Mortgage-Backed Securities ("MBS"):*

The unrealized losses associated with U.S. Government agencies and residential MBS are primarily driven by changes in interest rates. These securities have either an explicit or implicit U.S. government guarantee.

*Corporate Bonds & Other Debt Securities:*

Securities are generally underwritten in accordance with the Company's investment standards prior to the decision to purchase, without relying on a bond issuer's guarantee in making the investment decision. These investments are investment grade and will continue to be monitored as part of the Company's ongoing impairment analysis, but are expected to perform in accordance with their terms.

Sale proceeds from the sale of available for sale securities for the three months ended March 31, 2019 were \$45.2 million which resulted in gross realized gains of \$1.1 million. There were no securities sold for the three months ended March 31, 2018.

**NOTE 5. LOANS, NET**

Loans consisted of the following at March 31, 2019 and December 31, 2018:

	March 31, 2019	December 31, 2018
	(Dollars in thousands)	
Commercial and industrial loans (1)	\$ 162,934	\$ 173,892
Real estate:		
1-4 single family residential loans	280,788	275,644
Construction, land and development	169,919	159,734
Commercial real estate loans (including multifamily)	418,032	397,953
Consumer loans and leases	21,631	24,378
Municipal and other loans	62,691	61,339
Total loans held in portfolio (2)	<u>\$ 1,115,995</u>	<u>\$ 1,092,940</u>
Allowance for loan losses	<u>(6,569)</u>	<u>(6,286)</u>
Loans held in portfolio, net	<u>\$ 1,109,426</u>	<u>\$ 1,086,654</u>

(1) Balance includes \$73.5 million and \$76.9 million of the unguaranteed portion of SBA loans as of March 31, 2019 and December 31, 2018, respectively.

(2) Balance includes \$(4.7) million and \$(4.9) million of deferred fees, cost, premium and discount as of March 31, 2019 and December 31, 2018, respectively.

At March 31, 2019 and December 31, 2018, the Company had pledged loans as collateral for FHLB advances of \$13.1 million and \$385.5 million, respectively. There were no recorded investments of consumer mortgage loans secured by residential real estate properties for which formal foreclosure proceedings are in process as of March 31, 2019 and December 31, 2018.

The Company originates and sells loans secured by the SBA. The Company retains the unguaranteed portion of the loan and servicing on the loans sold and receives a fee based upon the principal balance outstanding. During the three months ended March 31, 2019 and 2018, the Company sold approximately \$10.1 million and \$17.1 million, respectively, in loans to third parties. The loan sales resulted in realized gains of \$804 thousand and \$1.5 million for the three months ended March 31, 2019 and 2018, respectively.

In the ordinary course of business, the Company makes loans to executive officers and directors. Loans to these related parties, including companies in which they are principal owners, are as follows:

	Three Months Ended March 31,	
	2019	2018
	(Dollars in thousands)	
Principal outstanding, beginning of year	\$ 107	\$ 463
Additions (reductions) of affiliations	—	—
New loans made in current year	—	—
Repayments	(14)	(21)
Principal outstanding, end of year	<u>\$ 93</u>	<u>\$ 442</u>

There were no unfunded commitments to related parties at March 31, 2019 or December 31, 2018.

#### NOTE 6. ALLOWANCE FOR LOAN AND LEASE LOSSES

The allowance for loan and lease losses is a reserve established through a provision for loan losses charged to expense, which represents management's best estimate of probable losses that have been incurred within the existing portfolio of loans. The allowance, in the judgment of management, is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio. The methodology is based on historical loss experience by type of credit and internal risk grade, changes in the composition and volume of the portfolio, and specific loss allocations, with adjustments for current events and conditions. The Company's process for determining the appropriate level of the allowance for loan and lease losses is designated to account for credit deterioration as it occurs.

Prior to the second quarter of 2018, the Company was utilizing a peer bank allowance coverage ratio in the qualitative reserve calculation, as the Company did not have enough historical defaults to rely on its own loss factors. Beginning the second quarter of 2018, the Company had a sufficient amount of defaults over the five year lookback period to transition over to relying more on its own historical loss data versus peer data. While this did not result in a significant change to the allowance for loan and lease losses as a whole, it continues to impact the provision for certain loan categories in which the Company had experienced more historical defaults.

On November 14, 2018, the Company closed its acquisition of Comanche. At the date of acquisition, Comanche had \$117.2 million in loans. In accordance with ASC 805 Business Combinations, the Company utilized a third party to value the loan portfolio as of the acquisition date. Based upon the third party valuation, the fair value of the loans was approximately \$116.2 million at the acquisition date. The overall discount calculated was \$946 thousand and will be accreted into interest income over the life of the loans.

As of March 31, 2019, all purchased loans were excluded from the allowance for loan and lease losses calculation given there was no deterioration between the acquisition date and the end of the first quarter of 2019. Purchased credit impaired loans were insignificant. Going forward, management will evaluate the remaining credit quality, credit discount and charge-offs associated with these purchased loans to determine if an additional allowance is deemed necessary.

The following tables present information related to allowance for loan and lease losses for the periods presented:

Three Months Ended March 31, 2019	Allowance Rollforward				
	Beginning Balance	Charge-offs	Recoveries	Provision	Ending Balance
	(Dollars in thousands)				
Commercial and industrial loans	\$ 4,453	\$ (578)	\$ 28	\$ 758	\$ 4,661
Real estate:					
1-4 single family residential loans	59	—	—	(25)	34
Construction, land and development loans	731	—	—	18	749
Commercial real estate loans (including multifamily)	960	—	—	97	1,057
Consumer loans and leases	80	(18)	2	(7)	57
Municipal and other loans	3	—	—	8	11
Ending allowance balance	<u>\$ 6,286</u>	<u>\$ (596)</u>	<u>\$ 30</u>	<u>\$ 849</u>	<u>\$ 6,569</u>

Three Months Ended March 31, 2018	Allowance Rollforward				
	Beginning Balance	Charge-offs	Recoveries	Provision	Ending Balance
	(Dollars in thousands)				
Commercial and industrial loans	\$ 3,046	\$ (324)	\$ 66	\$ 118	\$ 2,906
Real estate:					
1-4 single family residential loans	902	—	—	(15)	887
Construction, land and development loans	441	—	—	99	540
Commercial real estate loans (including multifamily)	898	—	—	134	1,032
Consumer loans and leases	198	(6)	—	(17)	175
Municipal and other loans	167	—	—	20	187
Ending allowance balance	<u>\$ 5,652</u>	<u>\$ (330)</u>	<u>\$ 66</u>	<u>\$ 339</u>	<u>\$ 5,727</u>

#### Credit Quality Indicators

In evaluating credit risk, the Company looks at multiple factors; however, management considers delinquency status to be the most meaningful indicator of the credit quality of 1-4 single family residential, home equity loans and lines of credit and consumer loans. Delinquency statistics are updated at least monthly. Internal risk ratings are considered the most meaningful indicator of credit quality for commercial, construction, land and development and commercial real estate loans. Internal risk ratings are updated on a continuous basis.

The following tables present an aging analysis of the recorded investment for delinquent loans by portfolio and segment:

March 31, 2019	Accruing					Non-Accrual	Total
	Current	30 to 59 Days Past Due	60 to 89 Days Past Due	90 Days or More Past Due			
	(Dollars in thousands)						
Commercial and industrial loans	\$ 158,227	\$ 275	\$ 117	\$ 43	\$ 4,272	\$ 162,934	
Real estate:							
1-4 single family residential loans	277,933	1,641	329	—	885	280,788	
Construction, land and development	169,686	—	10	—	223	169,919	
Commercial real estate loans (including multifamily)	417,442	104	135	—	351	418,032	
Consumer loans and leases	21,492	74	46	—	19	21,631	
Municipal and other loans	62,691	—	—	—	—	62,691	
Total loans	<u>\$ 1,107,471</u>	<u>\$ 2,094</u>	<u>\$ 637</u>	<u>\$ 43</u>	<u>\$ 5,750</u>	<u>\$ 1,115,995</u>	

December 31, 2018	Accruing					Non-Accrual	Total
	Current	30 to 59 Days Past Due	60 to 89 Days Past Due	90 Days or More Past Due			
	(Dollars in thousands)						
Commercial and industrial loans	\$ 169,206	\$ 605	\$ 223	\$ 288	\$ 3,570	\$ 173,892	
Real estate:							
1-4 single family residential loans	273,909	581	64	—	1,090	275,644	
Construction, land and development	159,723	11	—	—	—	159,734	
Commercial real estate loans (including multifamily)	396,559	451	589	—	354	397,953	
Consumer loans and leases	24,109	208	44	—	17	24,378	
Municipal and other loans	61,289	50	—	—	—	61,339	
Total loans	<u>\$ 1,084,795</u>	<u>\$ 1,906</u>	<u>\$ 920</u>	<u>\$ 288</u>	<u>\$ 5,031</u>	<u>\$ 1,092,940</u>	

There was one loan 90 days or more past due and still accruing at March 31, 2019 with a recorded investment of \$3 thousand. There were four loan 90 days or more past due and still accruing at December 31, 2018 with a recorded investment of \$288 thousand.

At March 31, 2019, non-accrual loans that were 30 to 59 days past due were \$58 thousand, non-accrual loans that were 60 to 89 days past due were \$37 thousand, and non-accrual loans that were 90 days or more past due were \$1.3 million. At December 31, 2018, non-accrual loans that were 30 to 59 days past due were \$75 thousand, non-accrual loans that were 60 to 89 days past due were \$143 thousand, and non-accrual loans that were 90 days or more past due were \$2.0 million.

Loans exhibiting potential credit weaknesses that deserve management's close attention and that if left uncorrected may result in deterioration of the repayment capacity of the borrower are categorized as special mention. Loans with well-defined credit weaknesses including payment defaults, declining collateral values, frequent overdrafts, operating losses, increasing balance sheet leverage, inadequate cash flow, project cost overruns, unreasonable construction delays, past due real estate taxes or exhausted interest reserves are assigned an internal risk rating of substandard. Loans classified as substandard can be on an accrual or non-accrual basis, as determined by its unique characteristics. A loan with a weakness so severe that collection in full is highly questionable or improbable will be assigned an internal risk rating of doubtful.

The following table summarizes the Company's loans by key indicators of credit quality:

<b>March 31, 2019</b>	<b>Pass</b>	<b>Special Mention</b>	<b>Substandard</b>	<b>Doubtful</b>
(Dollars in thousands)				
Commercial and industrial loans	\$ 151,905	\$ 3,252	\$ 7,777	\$ —
Real estate:				
1-4 single family residential loans	277,797	691	2,300	—
Construction, land and development	167,664	10	2,245	—
Commercial real estate loans (including multifamily)	402,034	11,203	4,795	—
Consumer loans and leases	21,537	2	92	—
Municipal and other loans	62,677	—	14	—
Total loans	<u>\$ 1,083,614</u>	<u>\$ 15,158</u>	<u>\$ 17,223</u>	<u>\$ —</u>

  

<b>December 31, 2018</b>	<b>Pass</b>	<b>Special Mention</b>	<b>Substandard</b>	<b>Doubtful</b>
(Dollars in thousands)				
Commercial and industrial loans	\$ 163,908	\$ 3,170	\$ 6,601	\$ 213
Real estate:				
1-4 single family residential loans	270,839	1,714	2,547	544
Construction, land and development	157,688	24	2,022	—
Commercial real estate loans (including multifamily)	383,323	12,412	1,806	412
Consumer loans and leases	20,798	1,836	180	1,564
Municipal and other loans	60,837	484	—	18
Total loans	<u>\$ 1,057,393</u>	<u>\$ 19,640</u>	<u>\$ 13,156</u>	<u>\$ 2,751</u>

Internal risk ratings and other credit metrics are key factors in identifying loans to be individually evaluated for impairment and impact management's estimates of loss factors used in determining the amount of the allowance for loan and lease losses.

The following table shows the Company's investment in loans disaggregated based on the method of evaluating impairment:

<b>March 31, 2019</b>	<b>Loans - Recorded Investment</b>		<b>Allowance for Credit Loss</b>	
	<b>Individually Evaluated for Impairment</b>	<b>Collectively Evaluated for Impairment</b>	<b>Individually Evaluated for Impairment</b>	<b>Collectively Evaluated for Impairment</b>

*Troubled Debt Restructurings:*

The following table provides a summary of troubled debt restructurings (“TDRs”) based upon delinquency status, all of which are considered impaired:

	March 31, 2019		December 31, 2018	
	Number of contracts	Recorded Investment	Number of contracts	Recorded Investment
	(Dollars in thousands)			
Performing TDRs:				
Commercial and industrial loans	3	\$ 68	3	\$ 69
Real estate:				
1-4 single family residential loans	2	136	2	141
Construction, land and development	—	—	—	—
Commercial real estate loans (including multifamily)	—	—	—	—
Consumer loans and leases	—	—	—	—
Municipal and other loans	—	—	—	—
Total performing TDRs	<u>5</u>	<u>204</u>	<u>5</u>	<u>210</u>
Nonperforming TDRs	<u>7</u>	<u>421</u>	<u>7</u>	<u>448</u>
Total TDRs	<u>12</u>	<u>\$ 625</u>	<u>12</u>	<u>\$ 658</u>
Allowance attributable to TDRs		<u>\$ 128</u>		<u>\$ 149</u>

The following table summarizes TDRs and includes newly designated TDRs as well as modifications made to existing TDRs. Modifications may include, but are not limited to, granting a material extension of time, entering into a forbearance agreement, adjusting the interest rate, accepting interest only payments for an extended period of time, a change in the amortization period or a combination of any of these. Post-modification balances represent the recorded investment at the end of Day 2 in which the modification was made:

	Three Months Ended March 31,							
	2019			2018				
	Number of Contracts	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Related Allowance	Number of Contracts	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Related Allowance
	(Dollars in thousands)							
Commercial and industrial loans	—	\$ —	\$ —	\$ —	5	\$ 369	\$ 369	\$ 30
Real estate:								
1-4 single family residential loans	—	—	—	—	—	—	—	—
Construction, land and development	—	—	—	—	—	—	—	—
Commercial real estate loans (including multifamily)	—	—	—	—	—	—	—	—
Consumer loans and leases	—	—	—	—	—	—	—	—
Municipal and other loans	—	—	—	—	—	—	—	—

There have been no defaults of troubled debt restructurings that took place within the three months ended March 31, 2019 and 2018.

**NOTE 7. GOODWILL AND INTANGIBLES**

Goodwill and other intangible assets, which consist of core deposit intangibles, are summarized as follows:

	<b>Three Months Ended March 31, 2019</b>	<b>Year Ended December 31, 2018</b>
	<b>(Dollars in thousands)</b>	
Beginning goodwill	\$ 18,253	\$ 4,485
Arising from business combination	—	13,768
Ending goodwill	<u>\$ 18,253</u>	<u>\$ 18,253</u>
Core deposit intangible	13,166	13,166
Less: Accumulated amortization	(5,212)	(4,608)
Core deposit intangible, net	<u>\$ 7,954</u>	<u>\$ 8,558</u>

Amortization expense for core deposit intangibles for the three months ended March 31, 2019 and 2018 totaled \$03 thousand and \$176 thousand, respectively.

The estimated amount of amortization expense for core deposit intangible assets to be recognized over the next five fiscal years is as follows:

Type of intangibles	<b>Remainder of 2019</b>	<b>2020</b>	<b>2021</b>	<b>2022</b>	<b>2023</b>	<b>2024</b>
	<b>(Dollars in thousands)</b>					
Core deposit intangible	\$ 1,775	\$ 2,094	\$ 1,712	\$ 1,191	\$ 774	\$ 314

**NOTE 8. SBA SERVICING ASSET**

SBA servicing assets are recognized separately when rights are acquired through the sale of the guaranteed portion of SBA loans. These servicing rights are initially measured at fair value at the date of sale and included in the gain on sale. Updated fair values are obtained from an independent third party on a quarterly basis and adjustments are presented in SBA loan servicing fees on the consolidated statements of income. To determine the fair value of SBA servicing rights, the Company uses market prices for comparable servicing contracts, when available, or alternatively, uses a valuation model that calculates the present value of estimated future net servicing income.

Loans serviced for others are not included in the accompanying balance sheets. The unpaid principal balances of loans serviced for others were \$16.3 million and \$225.0 million at March 31, 2019 and December 31, 2018, respectively. SBA loan servicing fees were \$64 thousand and \$624 thousand for the three months ended March 31, 2019 and 2018, respectively.

The risks inherent in the SBA servicing asset relate primarily to changes in prepayments that result from shifts in interest rates. The following summarizes the activity pertaining to SBA servicing rights, which are in the consolidated balance sheets, for the three months ended March 31, 2019 and 2018:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
	<b>(Dollars in thousands)</b>	
Beginning balance	\$ 3,965	\$ 3,411
Origination of servicing assets	198	332
Change in fair value:		
Due to run-off	(165)	(208)
Due to market changes	(251)	(23)
Ending balance	<u>\$ 3,747</u>	<u>\$ 3,512</u>

**NOTE 9. DEPOSITS**

The following table sets forth the Company's deposits by category:

	March 31, 2019	December 31, 2018
(Dollars in thousands)		
Noninterest-bearing demand deposits	\$ 258,440	\$ 256,784
Interest-bearing demand deposits	127,182	124,933
Interest-bearing NOW accounts	7,509	7,961
Savings and money market accounts	228,635	245,928
Time deposits	581,486	547,042
Total deposits	<u>\$ 1,203,252</u>	<u>\$ 1,182,648</u>
Time deposits \$100,000 and greater	\$ 459,748	\$ 422,447
Time deposits \$250,000 and greater	153,358	129,424
Related party deposits (executive officers and directors)	6,565	7,847

The aggregate amount of overdraft demand deposits reclassified to loans was \$45 thousand and \$93 thousand at March 31, 2019 and December 31, 2018, respectively. The aggregate amount of maturities for time deposits for each of the five years following the latest balance sheet date totaled \$435.4 million, \$113.0 million, \$14.5 million, \$10.6 million and \$8.0 million, respectively.

**NOTE 10. STOCK-BASED COMPENSATION AND OTHER BENEFIT PLANS**

*Spirit of Texas Bancshares, Inc. 2008 Stock Plan (the "2008 Stock Plan")*

Option activity for the period indicated is summarized as follows:

	2008 Stock Plan			
	Options	Weighted Average Exercise Price	Aggregate Intrinsic Value (in thousands)	Weighted Average Remaining Contractual Life (Years)
Outstanding at January 1, 2019	1,116,672	\$ 13.04		
Granted	—			
Exercised	(86,300)	\$ 11.81	\$ 810	
Forfeited	(3,000)	\$ 16.00		
Expired	—			
Outstanding at March 31, 2019	<u>1,027,372</u>	\$ 13.14	\$ 8,281	4.81
Vested and exercisable at March 31, 2019	<u>869,892</u>	\$ 12.94	\$ 7,185	4.47

The total unrecognized compensation cost of \$516 thousand related to the 2008 Stock Plan for the share awards outstanding at March 31, 2019 will be recognized over a weighted average remaining period of 1.68 years.

*Spirit of Texas Bancshares, Inc. 2017 Stock Plan (the "2017 Stock Plan")*

Option activity for the period indicated is summarized as follows:

	2017 Stock Plan			
	Options	Weighted Average Exercise Price	Aggregate Intrinsic Value (in thousands)	Weighted Average Remaining Contractual Life (Years)
Outstanding at January 1, 2019	205,725	\$ 17.45		
Granted	850	\$ 23.18	\$ 2	
Exercised	(5,000)	\$ 15.00	\$ 31	
Forfeited	—			
Expired	—			
Outstanding at March 31, 2019	<u>201,575</u>	\$ 17.53	\$ 740	8.46
Vested and exercisable at March 31, 2019	<u>74,156</u>	\$ 15.00	\$ 460	7.92

The fair values of the stock options granted for the three months ended March 31, 2019 were determined utilizing the Black-Scholes pricing model methodology. A summary of assumptions used to calculate the fair values of the 2017 Stock Plan awards is presented below:

	<b>2017 Stock Plan</b>	
	<b>Three Months Ended</b>	
	<b>March 31, 2019</b>	
Expected volatility		23.3 %
Expected dividend yield		0.0 %
Expected term (years)		7.5
Risk-free interest rate		2.58 %
Weighted average grant date fair value	\$	7.57

The expected volatility is based on the combination of the Company's historical volatility and the volatility of comparable peer banks. The expected term represents the period of time that the 2017 Stock Plan awards are expected to be outstanding from the date of grant. The risk-free interest rate is based on the U.S. Treasury yields for the expected term of the instrument.

The total unrecognized compensation cost of \$614 thousand related to the 2017 Stock Plan for the share awards outstanding at March 31, 2019 will be recognized over a weighted average remaining period of 3.82 years.

#### Warrants

Activity for the Bank4Texas Warrants for the period indicated is summarized as follows:

	<b>Bank4Texas Warrants</b>			
	Warrants	Weighted Average Exercise Price	Aggregate Intrinsic Value (in thousands)	Weighted Average Remaining Contractual Life (Years)
Outstanding at January 1, 2019	10,710	\$ 10.50		
Granted	—			
Exercised	(838)	\$ 10.50	\$ 9	
Forfeited (1)	—			
Expired	—			
Outstanding at March 31, 2019	<u>9,872</u>	\$ 10.50	\$ 106	1.40
Vested and exercisable at March 31, 2019	<u>9,872</u>	\$ 10.50	\$ 106	1.40

There was no activity during the three months ended March 31, 2019 on the Oasis Warrants.

#### NOTE 11. BASIC AND DILUTED EARNINGS PER COMMON SHARE

The following table presents the computation of basic and diluted EPS:

	<b>Three Months Ended March 31,</b>	
	<b>2019</b>	<b>2018</b>
	<b>(Dollars in thousands, except per share data)</b>	
Net income available to common stockholders	\$ 3,810	\$ 2,013
Weighted average number of common shares - basic	12,152,558	7,348,992
Effect of dilutive securities:		
Employee stock-based compensation awards and warrants	454,887	194,614
Weighted average number of common shares - diluted	<u>12,607,445</u>	<u>7,543,606</u>
Basic earnings per common share	\$ 0.31	\$ 0.27
Diluted earnings per common share	<u>\$ 0.30</u>	<u>\$ 0.27</u>
Anti-dilutive warrants and stock options	4,203	391,877

## NOTE 12. INCOME TAXES

The Company estimates both permanent and temporary differences in computing its interim tax provision. The effective tax rate is based on actual pre-tax income which approximates the effective tax rate based on forecasted annual pre-tax income, permanent tax differences and statutory tax rates.

The effective tax rates for the three months ended March 31, 2019 and 2018 were 17.9% and 19.6%, respectively. The decrease in the effective tax rate for the three months ended March 31, 2019 was primarily due to a return to provision adjustment recorded during the first quarter of 2019 and non-taxable interest on securities related to the Comanche acquisition.

## NOTE 13. COMMITMENTS AND CONTINGENCIES

The Company issues off-balance sheet financial instruments in connection with its lending activities and to meet the financing needs of its customers. These financial instruments include commitments to fund loans and lines of credit as well as commercial and standby letters of credit. These commitments expose the Company to varying degrees of credit and market risk which are essentially the same as those involved in extending loans to customers. The Company follows the same credit policies in making commitments as it does for instruments recorded on the Company's consolidated balance sheet. Collateral is obtained based on management's assessment of the customer's credit risk.

The Company's exposure to credit loss is represented by the contractual amount of these commitments. As of March 31, 2019 and December 31, 2018, the Company's reserve for unfunded commitments totaled \$20 thousand and \$48 thousand, respectively.

Fees collected on off-balance sheet financial instruments represent the fair value of those commitments and are deferred and amortized over their term.

### Financial Instruments Commitments

Unfunded commitments are as follows:

	March 31, 2019	December 31, 2018
	(Dollars in thousands)	
Unfunded loan commitments	\$ 187,227	\$ 176,156
Commercial and standby letters of credit	596	547
Total	<u>\$ 187,823</u>	<u>\$ 176,703</u>

#### *Unfunded loan commitments:*

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if it is deemed necessary by the Company upon extension of credit, is based upon management's credit evaluation of the counterparty. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment, and income-producing commercial properties.

#### *Commercial and standby letters of credit:*

Letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. Letters of credit are primarily issued to support trade transactions or guarantee arrangements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Company generally holds collateral supporting those commitments if deemed necessary.

### Other Commitments and Contingencies

#### *Legal Proceedings*

The Company, from time to time, is involved as plaintiff or defendant in various legal actions arising in the normal course of business. While the ultimate outcome of any such proceedings cannot be predicted with certainty, it is the opinion of management, based upon advice of legal counsel, that no proceedings exist, either individually or in the aggregate, which, if determined adversely to the Company, would have a material effect on the Company's consolidated balance sheet, results of operations or cash flows.

## NOTE 14. FAIR VALUE MEASUREMENTS

When determining the fair value measurements for assets and liabilities and the related fair value hierarchy, the Company considers the principal or most advantageous market in which it would transact and the assumptions that market participants would use when pricing the asset or liability. When possible, the Company looks to active and observable markets to price identical assets or liabilities. When identical assets and liabilities are not traded in active markets, the Company looks to market observable data for similar assets and liabilities. It is the Company's policy to maximize the use of observable inputs, minimize the use of unobservable inputs and use unobservable inputs to measure fair value to the extent that observable inputs are not available. The need to use unobservable inputs generally results from the lack of market liquidity, resulting in diminished observability of both actual trades and assumptions that would otherwise be available to value these instruments, or the value of the underlying collateral is not market observable. Although third party price indications may be available for an asset or liability, limited trading activity would make it difficult to support the observability of these quotations.

### *Financial Instruments Carried at Fair Value on a Recurring Basis*

The following is a description of the valuation methodologies used for financial instruments measured at fair value on a recurring basis, as well as the general classification of each instrument under the valuation hierarchy.

**Investment Securities**—Investment securities available for sale are carried at fair value on a recurring basis. When available, fair value is based on quoted prices for the identical security in an active market and as such, would be classified as Level 1. If quoted market prices are not available, fair values are estimated using quoted prices of securities with similar characteristics, discounted cash flows or matrix pricing models. Investment securities available for sale for which Level 1 valuations are not available are classified as Level 2, and include U.S. Government agencies and sponsored enterprises obligations and agency mortgage-backed securities; state and municipal obligations; asset-backed securities; and corporate debt and other securities. Pricing of these securities is generally spread driven.

Observable inputs that may impact the valuation of these securities include benchmark yield curves, credit spreads, reported trades, dealer quotes, bids, issuer spreads, current rating, historical constant prepayment rates, historical voluntary prepayment rates, structural and waterfall features of individual securities, published collateral data, and for certain securities, historical constant default rates and default severities.

**SBA Servicing Asset**—The SBA Servicing Asset is carried at fair value on a recurring basis. To determine the fair value of SBA servicing rights, The Company uses market prices for comparable servicing contracts, when available, or alternatively, uses a valuation model that calculates the present value of estimated future net servicing income. In using this valuation method, the Company incorporates assumptions that market participants would use in estimating future net servicing income, which includes estimates of the cost to service, the discount rate, custodial earnings rate, an inflation rate, ancillary income, prepayment speeds, default rates, late fees and losses. The SBA Servicing Asset is classified as Level 3.

The following table presents the assets and liabilities measured at fair value on a recurring basis:

	March 31, 2019			
	Level 1	Level 2	Level 3	Total
	(Dollars in thousands)			
Assets:				
U.S. Government agencies	\$ —	\$ 1,984	\$ —	\$ 1,984
State and municipal obligations	—	9,865	—	9,865
Residential mortgage-backed securities	—	113,616	—	113,616
Corporate bonds and other debt securities	—	5,603	—	5,603
SBA servicing rights	—	—	3,747	3,747
Total	<u>\$ —</u>	<u>\$ 131,068</u>	<u>\$ 3,747</u>	<u>\$ 134,815</u>
	December 31, 2018			
	Level 1	Level 2	Level 3	Total
	(Dollars in thousands)			
Assets:				
U.S. Government agencies	\$ —	\$ 1,934	\$ —	\$ 1,934
State and municipal obligations	—	18,048	—	18,048
Residential mortgage-backed securities	—	153,974	—	153,974
Corporate bonds and other debt securities	—	5,505	—	5,505
SBA servicing rights	—	—	3,965	3,965
Total	<u>\$ —</u>	<u>\$ 179,461</u>	<u>\$ 3,965</u>	<u>\$ 183,426</u>

There were no transfers of financial assets between levels of the fair value hierarchy during the three months ended March 31, 2019.

*Financial Instruments Measured at Fair Value on a Non-Recurring Basis*

The following is a description of the methodologies used to estimate the fair values of assets and liabilities measured at fair value on a non-recurring basis, and the level within the fair value hierarchy in which those measurements are typically classified.

Impaired loans and other real estate owned (“OREO”)—The carrying amount of collateral dependent impaired loans is typically based on the fair value of the underlying collateral, which may be real estate or other business assets, less estimated costs to sell. The carrying value of OREO is initially measured based on the fair value, less estimated cost to sell, of the real estate acquired in foreclosure and subsequently adjusted to the lower of cost or estimated fair value, less estimated cost to sell. Fair values of real estate collateral are typically based on real estate appraisals which utilize market and income valuation techniques incorporating both observable and unobservable inputs. When current appraisals are not available, the Company may use brokers’ price opinions, home price indices, or other available information about changes in real estate market conditions to adjust the latest appraised value available. These adjustments to appraised values may be subjective and involve significant management judgment. The fair value of collateral consisting of other business assets is generally based on appraisals that use market approaches to valuation, incorporating primarily unobservable inputs. Fair value measurements related to collateral dependent impaired loans and OREO are classified within Level 3 of the fair value hierarchy.

The following tables provide information about certain assets measured at fair value on a non-recurring basis:

	Estimated Fair Value	
	March 31, 2019	December 31, 2018
(Dollars in thousands)		
Assets (classified in Level 3):		
Impaired loans	\$ 2,992	\$ 2,696
Other real estate and repossessed assets	518	782

Impairment charges resulting from the non-recurring changes in fair value of underlying collateral of impaired loans are included in the provision for loan losses in the consolidated statement of income. Impairment charges resulting from the non-recurring changes in fair value of OREO are included in other real estate and acquired assets resolution expenses in the consolidated statement of income.

The following tables show significant unobservable inputs used in the recurring and non-recurring fair value measurements of Level 3 assets:

Level 3 Asset	Fair Value	Valuation Technique	Unobservable Inputs	Range/Weighted Average
<b>March 31, 2019</b>				
Non-recurring:				
Impaired loans	\$ 2,992	Third party appraisals	Collateral discounts	0.0% - 100.0% (24.8%)
Other real estate owned	518	Third party appraisals	Collateral discounts and estimated cost to sell	10.0 %
Recurring:				
SBA servicing assets	3,747	Discounted cash flows	Conditional prepayment rate	12.3 %
			Discount rate	11.5 %
<b>December 31, 2018</b>				
Non-recurring:				
Impaired loans	\$ 2,696	Third party appraisals	Collateral discounts	0.0% - 100.0% (19.2%)
Other real estate owned	782	Third party appraisals	Collateral discounts and estimated cost to sell	10.0 %
Recurring:				
SBA servicing assets	3,965	Discounted cash flows	Conditional prepayment rate	11.8 %
			Discount rate	11.5 %

The carrying amounts and estimated fair values, as well as the level within the fair value hierarchy, of the Company’s financial instruments are as follows:

March 31, 2019	Carrying Value	Fair Value	Level 1	Level 2	Level 3
(Dollars in thousands)					
<b>Financial Assets:</b>					
Cash and cash equivalents	\$ 122,662	\$ 122,662	\$ 122,662	\$ —	\$ —
Available for sale securities	131,068	131,068	—	131,068	—
FHLB and other bank stock	5,264	5,264	—	5,264	—
Loans, net	1,109,426	1,105,358	—	—	1,105,358
Loans held for sale	6,300	6,764	—	6,764	—
Accrued interest receivable	4,849	4,849	—	4,849	—
Bank-owned life insurance	7,442	7,442	—	7,442	—
SBA servicing rights	3,747	3,747	—	—	3,747
<b>Financial Liabilities:</b>					
Deposits	\$ 1,203,252	\$ 1,173,897	\$ —	\$ 1,173,897	\$ —

Long-term borrowings	65,676	63,183	—	63,183	—
December 31, 2018	Carrying Value	Fair Value	Level 1	Level 2	Level 3
(Dollars in thousands)					
<b>Financial Assets:</b>					
Cash and cash equivalents	\$ 89,015	\$ 89,015	\$ 89,015	\$ —	\$ —
Available for sale securities	179,461	179,461	—	179,461	—
FHLB and other bank stock	5,304	5,304	—	5,304	—
Loans, net	1,086,654	1,075,252	—	—	1,075,252
Loans held for sale	3,945	4,200	—	4,200	—
Accrued interest receivable	4,934	4,934	—	4,934	—
Bank-owned life insurance	7,401	7,401	—	7,401	—
SBA servicing rights	3,965	3,965	—	—	3,965
<b>Financial Liabilities:</b>					
Deposits	\$ 1,182,648	\$ 1,181,606	\$ —	\$ 1,181,606	\$ —
Accrued interest payable	702	702	—	702	—
Short-term borrowings	12,500	12,500	—	12,500	—
Long-term borrowings	67,916	66,735	—	66,735	—

Certain financial instruments are carried at amounts that approximate fair value due to their short-term nature and generally negligible credit risk. Financial instruments for which fair value approximates the carrying amount at March 31, 2019 and December 31, 2018, include cash and cash equivalents, time deposits in other banks and accrued interest receivable and payable.

#### NOTE 15. SUBSEQUENT EVENT

On April 2, 2019, the Company completed its acquisition of First Beeville Financial Corporation and its subsidiary, The First National Bank of Beeville (together “Beeville”). This transaction resulted in three additional branches and three loan production offices in the South Texas market. The Company issued 1,579,268 shares of its common stock as well as a net cash payment to Beeville shareholders of \$32.4 million, a total consideration of \$65.9 million, for all outstanding stock of Beeville and resulted in 100% ownership interest.

The Company is still evaluating the fair values of the assets acquired and liabilities assumed in the Beeville acquisition.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following discussion and analysis is intended to assist readers in understanding our financial condition as of and results of operations for the three months ended March 31, 2019 and should be read in conjunction with our consolidated financial statements and the accompanying notes thereto included in this Quarterly Report on Form 10-Q (this "Form 10-Q") and in our Annual Report on Form 10-K filed with the Securities and Exchange Commission ("SEC") for the year ended December 31, 2018. Unless we state otherwise or the context otherwise requires, references in this Form 10-Q to "we," "our," "us" and "our company" refer to Spirit of Texas Bancshares, Inc., a Texas corporation, and our wholly-owned banking subsidiary, Spirit of Texas Bank SSB, a Texas state savings bank. References in this Form 10-Q to "Bank" refer to Spirit of Texas Bank SSB. References in this Form 10-Q to "Houston metropolitan area," "Dallas/Fort Worth metropolitan area" and "Bryan/College Station metropolitan area" refer to the Houston-The Woodlands-Sugar Land Metropolitan Statistical Area, the Dallas-Fort Worth- Arlington Metropolitan Statistical Area and the College Station-Bryan Metropolitan Statistical Area, respectively.*

### Cautionary Notice Regarding Forward-Looking Statements

Statements and financial discussion and analysis contained in this Form 10-Q that are not historical facts are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. We also may make forward-looking statements in our other documents filed with or furnished to the SEC. In addition, our senior management may make forward-looking statements orally to investors, analysts, representatives of the media and others. These statements are often, but not always, preceded by, followed by or otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans" and similar expressions or future or conditional verbs such as "will," "should," "would," "may" and "could" or the negative version of those words or other comparable words or phrases of a future or forward-looking nature. These forward-looking statements are not historical facts and are based on current expectations, estimates and projections about our industry, management's beliefs and certain assumptions made by management, many of which, by their nature, are inherently uncertain and beyond our control. Accordingly, we caution you that any such forward-looking statements are not guarantees of future performance and are subject to risks, assumptions and uncertainties that are difficult to predict. Although we believe that the expectations reflected in these forward-looking statements are reasonable as of the date made, actual results may prove to be materially different from the results expressed or implied by the forward-looking statements.

We have made the forward-looking statements in this Form 10-Q based on assumptions and estimates that we believe to be reasonable in light of the information available to us at this time. However, these forward-looking statements are subject to significant risks and uncertainties, and could be affected by many factors. These factors include, but are not limited to, the following:

1. risks related to the concentration of our business in Texas, and in the Houston and Dallas/Fort Worth metropolitan areas in particular, including risks associated with any downturn in the real estate sector and risks associated with a decline in the values of single family homes in our Texas markets;
2. general market conditions and economic trends nationally, regionally and particularly in our Texas markets, including a decrease in or the volatility of oil and gas prices;
3. risks related to our concentration in our primary markets, which are susceptible to severe weather events that could negatively impact the economies of our markets, our operations or our customers, any of which could have a material adverse effect on our business, financial condition and results of operations;
4. our ability to implement our growth strategy, including identifying and consummating suitable acquisitions;
5. risks related to the integration of any acquired businesses, including exposure to potential asset quality and credit quality risks and unknown or contingent liabilities, the time and costs associated with integrating systems, technology platforms, procedures and personnel, the need for additional capital to finance such transactions, and possible failures in realizing the anticipated benefits from acquisitions;
6. changes in Small Business Administration, or SBA, loan products, including specifically the Section 7(a) program and Section 504 loans, or changes in SBA standard operating procedures;
7. risks associated with our loans to and deposit accounts from foreign nationals;
8. risks associated with the relatively unseasoned nature of a significant portion of our loan portfolio;
9. the accuracy and sufficiency of the assumptions and estimates we make in establishing reserves for potential loan losses and other estimates;

10. the risk of deteriorating asset quality and higher loan charge-offs;
11. risks related to the significant amount of credit that we have extended to a limited number of borrowers and in a limited geographic area;
12. our ability to maintain adequate liquidity and to raise necessary capital to fund our acquisition strategy and operations or to meet increased minimum regulatory capital levels;
13. material decreases in the amount of deposits we hold, or a failure to grow our deposit base as necessary to help fund our growth and operations;
14. changes in market interest rates that affect the pricing of our loans and deposits and our net interest income;
15. potential fluctuations in the market value and liquidity of our investment securities;
16. the effects of competition from a wide variety of local, regional, national and other providers of financial, investment and insurance services;
17. our ability to maintain an effective system of disclosure controls and procedures and internal controls over financial reporting;
18. risks associated with fraudulent, negligent, or other acts by our customers, employees or vendors;
19. our ability to keep pace with technological change or difficulties when implementing new technologies;
20. risks associated with system failures or failures to protect against cybersecurity threats, such as breaches of our network security;
21. risks associated with data processing system failures and errors;
22. potential impairment on the goodwill we have recorded or may record in connection with business acquisitions;
23. the initiation and outcome of litigation and other legal proceedings against us or to which we become subject;
24. our ability to comply with various governmental and regulatory requirements applicable to financial institutions, including regulatory requirements to maintain minimum capital levels;
25. the impact of recent and future legislative and regulatory changes, including changes in banking, securities and tax laws and regulations and their application by our regulators, such as the implementation of the Economic Growth, Regulatory Relief and Consumer Protection Act;
26. governmental monetary and fiscal policies, including the policies of the Board of Governors of the Federal Reserve System, or the Federal Reserve;
27. our ability to comply with supervisory actions by federal and state banking agencies;
28. changes in the scope and cost of Federal Deposit Insurance Corporation, or the FDIC, insurance and other coverage; and
29. systemic risks associated with the soundness of other financial institutions.
30. the cost savings from our recent acquisitions may not be fully realized or may take longer to realize than expected; and
31. operating costs, customer loss and business disruption following the acquisitions, including adverse effects on relationships with employees, may be greater than expected; and
32. competition from other financial services companies in Spirit's, Comanche's and Beeville's respective markets.

Other factors not identified above, including those described under the heading “Risk Factors” in our Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2018, and the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in this Form 10-Q, may also cause our results to differ materially from the anticipated or estimated results described in our forward-looking statements. The foregoing factors should not be construed as exhaustive, and you should consider these factors in connection with considering any forward-looking statements that may be made by us. If one or more events related to these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may differ materially from what we anticipate. Accordingly, you should not place undue reliance on any such forward-looking statements. Any forward-looking statements speaks only as of the date on which it is made, and we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless we are required to do so by law.

## Overview

We are a Texas corporation and a registered bank holding company located in the Houston metropolitan area with headquarters in Conroe, Texas. We offer a broad range of commercial and retail banking services through our wholly-owned bank subsidiary, Spirit of Texas Bank SSB. We operate through 23 full-service branches located primarily in the Houston and Dallas/Fort Worth metropolitan areas. As of March 31, 2019, we had total assets of \$1.48 billion, loans held for investment of \$1.12 billion, total deposits of \$1.20 billion and total stockholders’ equity of \$204.0 million.

As a bank holding company, we generate most of our revenues from interest income on loans, gains on sale of the guaranteed portion of SBA loans, customer service and loan fees, brokerage fees derived from secondary mortgage originations and interest income from investments in securities. We incur interest expense on deposits and other borrowed funds and noninterest expenses, such as salaries and employee benefits and occupancy expenses. Our goal is to maximize income generated from interest-earning assets, while also minimizing interest expense associated with our funding base to widen net interest spread and drive net interest margin expansion. Net interest margin is a ratio calculated as net interest income divided by average interest-earning assets. Net interest income is the difference between interest income on interest-earning assets, such as loans and securities, and interest expense on interest-bearing liabilities, such as deposits and borrowings that are used to fund those assets. Net interest spread is the difference between rates earned on interest-earning assets and rates paid on interest-bearing liabilities.

Changes in market interest rates and the interest rates we earn on interest-earning assets or pay on interest-bearing liabilities, as well as the volume and types of interest-earning assets, interest-bearing and noninterest-bearing liabilities and stockholders’ equity, are usually the largest drivers of periodic changes in net interest spread, net interest margin and net interest income. Fluctuations in market interest rates are driven by many factors, including governmental monetary policies, inflation, deflation, macroeconomic developments, changes in unemployment, the money supply, political and international conditions and conditions in domestic and foreign financial markets. Periodic changes in the volume and types of loans in our loan portfolio are affected by, among other factors, economic and competitive conditions in Texas, as well as developments affecting the real estate, technology, financial services, insurance, transportation, manufacturing and energy sectors within our target markets and throughout Texas.

## Recent Developments

On April 2, 2019, the Company closed its previously announced acquisition of First Beeville Financial Corporation and its bank subsidiary, The First National Bank of Beeville (together “Beeville”). This transaction resulted in three additional branches and three loan production offices in the South Texas market. The Company issued 1,579,268 shares of its common stock as well as a net cash payment to Beeville shareholders of \$32.4 million for all outstanding stock of Beeville and resulted in 100% ownership interest.

## Results of Operations

Our results of operations depend substantially on net interest income and noninterest income. Other factors contributing to our results of operations include our level of our noninterest expenses, such as salaries and employee benefits, occupancy and equipment and other miscellaneous operating expenses.

### *Net Interest Income*

Net interest income represents interest income less interest expense. We generate interest income from interest, dividends and fees received on interest-earning assets, including loans and investment securities we own. We incur interest expense from interest paid on interest-bearing liabilities, including interest-bearing deposits and borrowings. To evaluate net interest income, we measure and monitor (1) yields on our loans and other interest-earning assets, (2) the costs of our deposits and other funding sources, (3) our net interest spread, (4) our net interest margin and (5) our provisions for loan losses. Net interest spread is the difference between rates earned on interest-earning assets and rates paid on interest-bearing liabilities. Net interest margin is calculated as the annualized net interest income divided by average interest-earning assets. Because noninterest-bearing sources of funds, such as noninterest-bearing deposits and stockholders’ equity, also fund interest-earning assets, net interest margin includes the benefit of these noninterest-bearing sources.

Changes in market interest rates and the interest rates we earn on interest-earning assets or pay on interest-bearing liabilities, as well as the volume and types of interest-earning assets, interest-bearing and noninterest-bearing deposits and stockholders' equity, are usually the largest drivers of periodic changes in net interest spread, net interest margin and net interest income. We measure net interest income before and after provision for loan losses required to maintain our allowance for loan and lease losses at acceptable levels.

#### *Noninterest Income*

Our noninterest income includes the following: (1) service charges and fees; (2) SBA loan servicing fees; (3) mortgage referral fees; (4) gain on the sales of loans, net; (5) gain (loss) on sales of investment securities; and (6) other.

#### *Noninterest Expense*

Our noninterest expense includes the following: (1) salaries and employee benefits; (2) occupancy and equipment expenses; (3) professional services; (4) data processing and network; (5) regulatory assessments and insurance; (6) amortization of core deposit intangibles; (7) advertising; (8) marketing; (9) telephone expenses; (10) conversion expenses; and (11) other.

### **Financial Condition**

The primary factors we use to evaluate and manage our financial condition include liquidity, asset quality and capital.

#### *Liquidity*

We manage liquidity based upon factors that include the amount of core deposits as a percentage of total deposits, the level of diversification of our funding sources, the allocation and amount of our deposits among deposit types, the short-term funding sources used to fund assets, the amount of non-deposit funding used to fund assets, the availability of unused funding sources, off-balance sheet obligations, the availability of assets to be readily converted into cash without undue loss, the amount of cash and liquid securities we hold, and the repricing characteristics and maturities of our assets when compared to the repricing characteristics of our liabilities, the ability to securitize and sell certain pools of assets and other factors.

#### *Asset Quality*

We manage the diversification and quality of our assets based upon factors that include the level, distribution, severity and trend of problem, classified, delinquent, nonaccrual, nonperforming and restructured assets, the adequacy of our allowance for loan and lease losses, discounts and reserves for unfunded loan commitments, the diversification and quality of loan and investment portfolios and credit risk concentrations.

#### *Capital*

We manage capital based upon factors that include the level and quality of capital and our overall financial condition, the trend and volume of problem assets, the adequacy of discounts and reserves, the level and quality of earnings, the risk exposures in our balance sheet, the levels of Tier 1 (core), risk-based and tangible equity capital, the ratios of tier 1 (core), risk-based and tangible equity capital to total assets and risk-weighted assets and other factors.

### **Performance Highlights**

Operating and financial highlights for the three months ended March 31, 2019 include the following:

- Net Income for the first quarter of 2019 increased to \$3.8 million. Adjusted net income for the first quarter of 2019 was \$4.1 million, which excluded \$1.4 million of after-tax, merger related expenses and \$1.1 million of gain on sale of investment securities.
- Diluted earnings per share were \$0.30 for the first quarter of 2019. Adjusted diluted earnings per share were \$0.33 for the first quarter of 2019, which excluded \$1.4 million of after-tax merger related expenses and \$1.1 million of gain on sale of investment securities.
- Net Interest Margin and Tax Equivalent Net Interest Margin were 4.65% and 4.69%, respectively.
- Deposit growth of \$20.6 million, or 7.07% annualized.
- Loan growth of \$23.1 million, or 8.55% annualized.

- Return on Average Assets was 1.06%, annualized including merger related expenses and the gain on sale of investment securities
- Book value per share was \$16.72 and tangible book value per share was \$14.58.

Tax equivalent net interest margin, adjusted net income, adjusted basic and diluted earnings per share and tangible book value per share are non-GAAP financial measures. See our reconciliation of non-GAAP financial measures to their most directly comparable GAAP financial measures under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures.”

#### **Analysis of Results of Operations**

Net income for the three months ended March 31, 2019 totaled \$3.8 million, which generated diluted earnings per common share of \$0.30 for the three months ended March 31, 2019. Adjusted net income for the three months ended March 31, 2019 totaled \$4.1 million which excluded \$1.4 million of after-tax merger related expenses and \$1.1 million of gain on sale of investment securities, which generated adjusted diluted earnings per common share of \$0.33. Net income for the three months ended March 31, 2018 totaled \$2.0 million, which generated diluted earnings per common share of \$0.27 for the three months ended March 31, 2018. The increase in net income was driven by an increase in interest income of \$6.2 million that was primarily attributable to increasing loan yields and the growth in the average balance of loans, partially offset by an increase in noninterest expense of \$2.9 million, which was mainly the result of an increase of merger related expenses of \$1.8 million. Our results of operations for the three months ended March 31, 2019 produced an annualized return on average assets of 1.06% compared to an annualized return on average assets of 0.79% for the three months ended March 31, 2018. We had an annualized return on average stockholders’ equity of 7.65% for the three months ended March 31, 2019, compared to an annualized return on average stockholders’ equity of 8.09% for the three months ended March 31, 2018.

*Net Interest Income and Net Interest Margin*

The following table presents, for the periods indicated, information about (1) average balances, the total dollar amount of interest income from interest-earning assets and the resultant average yields; (2) average balances, the total dollar amount of interest expense on interest-bearing liabilities and the resultant average rates; (3) the interest rate spread; (4) net interest income and margin; and (5) net interest income and margin (tax equivalent). Interest earned on loans that are classified as nonaccrual is not recognized in income, however the balances are reflected in average outstanding balances for that period. Any nonaccrual loans have been included in the table as loans carrying a zero yield.

	Three Months Ended March 31,					
	2019			2018

Net interest rate spread			<u>4.29 %</u>			<u>4.16 %</u>
Net interest income and margin		<u>\$ 15,435</u>	<u>4.65 %</u>		<u>\$ 10,381</u>	<u>4.41 %</u>
Net interest income and margin (tax equivalent)(3)		<u>\$ 15,573</u>	<u>4.69 %</u>		<u>\$ 10,497</u>	<u>4.46 %</u>

(1) Average balances presented are derived from daily average balances.

(2) Includes loans on nonaccrual status.

(3) In order to make pretax income and resultant yields on tax-exempt loans comparable to those on taxable loans, a tax-equivalent adjustment has been computed using a federal tax rate of 21% for the three months ended March 31, 2019 and 2018, which is a non-GAAP financial measure. See our reconciliation of non-GAAP financial measures to their most directly comparable GAAP financial measures under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations—Non-GAAP Financial Measures."

Increases and decreases in interest income and interest expense result from changes in average balances (volume) of interest-earning assets and liabilities, as well as changes in average interest rates. The following table shows the effect that these factors had on the interest earned on our interest-earning assets and the interest incurred on our interest-bearing liabilities for the periods indicated. The effect of changes in volume is determined by multiplying the change in volume by the prior period's average rate. Similarly, the effect of rate changes is calculated by multiplying the change in average rate by the prior period's volume.

A summary of increases and decreases in interest income and interest expense resulting from changes in average balances (volume) and average interest rates follows:

	<b>Three Months Ended March 31, 2019 compared to 2018</b>		
	<b>Increase (Decrease) Due to</b>		
	<b>Volume (1)</b>	<b>Rate (1)</b>	<b>Total</b>
<b>(Dollars in thousands)</b>			
<b>Interest-earning assets:</b>			
Interest-earning deposits in other banks	\$ 371	\$ 51	\$ 422
Loans, including loans held for sale (2)	3,318	1,509	4,827
Investment securities and other	828	154	982
<b>Total change in interest income</b>	<b>\$ 4,517</b>	<b>\$ 1,714</b>	<b>\$ 6,231</b>
<b>Interest-bearing liabilities:</b>			
Interest-bearing demand deposits	\$ 167	\$ —	\$ 167
Interest-bearing NOW accounts	—	—	—
Savings and money market accounts	(3)	103	100
Time deposits	559	514	1,073

<b>Total change in interest expenses</b>	<b>574</b>	<b>603</b>	<b>1,177</b>
<b>Total change in net interest income</b>	<b>\$ 3,943</b>	<b>\$ 1,111</b>	<b>\$ 5,054</b>

- (1) Variances attributable to both volume and rate are allocated on a consistent basis between rate and volume based on the absolute value of the variances in each category.
- (2) Includes loans on nonaccrual status.

*Three months ended March 31, 2019 compared to three months ended March 31, 2018*

Net interest income was \$15.4 million for the three months ended March 31, 2019 compared to \$10.4 million for the three months ended March 31, 2018, representing an increase of \$5.1 million, or 48.7%. The increase in net interest income was primarily due to an increase in interest income of \$6.2 million partially offset by an increase in interest expense of \$1.2 million. Interest income on loans increased by \$4.8 million for the three months ended March 31, 2019. The growth in average loans of \$220.7 million, including loans held for sale, for the three months ended March 31, 2019 was the primary driver of the increase in interest income on loans, as well as an increase in the average rate on loans of 64 basis points over the same period.

Interest expense was \$3.4 million for the three months ended March 31, 2019 compared to \$2.3 million for the three months ended March 31, 2018, representing an increase of \$1.2 million. This increase was mainly due to an increase in interest expense on deposits. Interest expense on deposits totaled \$3.1 million for the three months ended March 31, 2019 compared to \$1.7 million for the three months ended March 31, 2018, representing an increase of \$1.3 million, resulting primarily from an increase in the average rate paid on time deposits of 43 basis points for the three months ended March 31, 2019 over the three months ended March 31, 2018. The average cost of deposits for the three months ended March 31, 2019 was 1.05%. This represents an increase of 20 basis points compared to the average cost of deposits of 0.85% for the three months ended March 31, 2018. The increase in cost of deposits was primarily attributable to the increase in interest rates by the Federal Open Market Committee during 2018. For the three months ended March 31, 2019, the average rate paid on time deposits was 1.78% compared to 1.35% for the three months ended March 31, 2018.

The net interest margin was 4.65% for the three months ended March 31, 2019 compared to 4.41% for the three months ended March 31, 2018, representing an increase of 24 basis points. The tax equivalent net interest margin was 4.69% for the three months ended March 31, 2019 compared to 4.46% for the three months ended March 31, 2018, representing an increase of 23 basis points. The average yield on interest-earning assets increased by 31 basis points for the three months ended March 31, 2019 compared to the three months ended March 31, 2018 while the average rate paid on interest-bearing liabilities increased by 18 basis points, resulting in a 13 basis point increase in the interest rate spread. The increase in both net interest margin and interest rate spread primarily resulted from the increase in the average loan balance of \$220.7 million as well as the increase in loan yields of 64 basis points for the three months ended March 31, 2019.

### Provision for Loan Losses

The provision for loan losses represents the amount determined by management to be necessary to maintain the allowance for loan and lease losses at a level capable of absorbing inherent losses in the loan portfolio. See the discussion under “—Critical Accounting Policies—Allowance for Loan and Lease Losses.” Our management and board of directors review the adequacy of the allowance for loan and lease losses on a quarterly basis. The allowance for loan and lease losses calculation is segregated by call report code and then further segregated into various segments that include classified loans, loans with specific allocations and pass rated loans. A pass rated loan is generally characterized by a very low to average risk of default and in which management perceives there is a minimal risk of loss. Loans are rated using a nine-point risk grade scale by loan officers that are subject to validation by a third party loan review or our internal credit committee. Risk ratings are categorized as pass, watch, special mention, substandard, doubtful and loss, with some general allocation of reserves based on these grades. Impaired loans are reviewed specifically and separately under the Financial Accounting Standards Board (“FASB”)’s Accounting Standards Codification (“ASC”) 310, “Receivables”, to determine the appropriate reserve allocation. Management compares the investment in an impaired loan with the present value of expected future cash flow discounted at the loan’s effective interest rate, the loan’s observable market price or the fair value of the collateral, if the loan is collateral-dependent, to determine the specific reserve allowance. Reserve percentages assigned to non-impaired loans are based on historical charge-off experience adjusted for other risk factors. To evaluate the overall adequacy of the allowance to absorb losses inherent in our loan portfolio, our management considers historical loss experience based on volume and types of loans, trends in classifications, volume and trends in delinquencies and nonaccruals, economic conditions and other pertinent information. Based on future evaluations, additional provisions for loan losses may be necessary to maintain the allowance for loan and lease losses at an appropriate level.

### Three months ended March 31, 2019 compared to three months ended March 31, 2018

The provision for loan losses was \$849 thousand for the three months ended March 31, 2019 and \$339 thousand for the three months ended March 31, 2018. The ratio of net charged-off loans to average loans (annualized) was 0.21% for the three months ended March 31, 2019 and 0.12% for the three months ended March 31, 2018. Charge-offs taken in the first quarter of 2019 were primarily on impaired loans which had been provided for in a previous period.

Our management maintains a proactive approach in managing nonperforming loans, which were \$5.8 million, or 0.52% of loans held for investment, at March 31, 2019, and \$5.3 million, or 0.49% of loans held for investment, at December 31, 2018. The allowance for loan and lease losses totaled \$6.6 million, or 0.59% of loans held for investment, at March 31, 2019 compared to \$6.3 million, or 0.58% of loans held for investment, at December 31, 2018. The ratio of allowance for loan and lease losses to nonperforming loans was 113.40% at March 31, 2019, compared to 118.18% at December 31, 2018.

### Noninterest Income

Our noninterest income includes the following: (1) service charges and fees; (2) SBA loan servicing fees; (3) mortgage referral fees; (4) gain on the sales of loans, net; (5) gain (loss) on sales of investment securities; and (6) other.

The following table presents a summary of noninterest income by category, including the percentage change in each category, for the periods indicated:

	<b>Three Months Ended March 31,</b>		
	<b>2019</b>	<b>2018</b>	<b>Change from the Prior Period</b>
Noninterest income:			
Service charges and fees	729	357	104.2 %
SBA loan servicing fees	264	624	-57.7 %
Mortgage referral fees	110	156	-29.5 %
Gain on sales of loans, net	804	1,474	-45.5 %
Gain on sales of investment securities	1,081	—	100.0 %
Other noninterest income	69	(23)	-400.0 %
Total noninterest income	<u>\$ 3,057</u>	<u>\$ 2,588</u>	<u>18.1 %</u>

### Three months ended March 31, 2019 compared to three months ended March 31, 2018

For the three months ended March 31, 2019, noninterest income totaled \$3.1 million, a \$469 thousand, or 18.1%, increase from \$2.6 million for the prior period. This increase was primarily due to an increase in the gain on sales of investment securities of \$1.1 million, partially offset by a decrease in the gain on sales of loans, net of \$670 thousand.

Gain on sales of investment securities were \$1.1 million for the three months ended March 31, 2019. There was no gain on sales of investment securities for the three months ended March 31, 2018. During January 2019, the Company sold \$45.2 million of investment securities in order to fund future loan growth.

Gain on sales of loans, net was \$804 thousand for the three months ended March 31, 2019, compared to \$1.5 million for the three months ended March 31, 2018. The closure of the U.S. government during the first quarter of 2019 affected the Company's ability to sell loans into the secondary market, as the Company was unable to secure new SBA guarantees.

#### *Noninterest Expense*

Our noninterest expense includes the following: (1) salaries and employee benefits; (2) occupancy and equipment expenses; (3) professional services; (4) data processing and network; (5) regulatory assessments and insurance; (6) amortization of core deposit intangibles; (7) advertising; (8) marketing; (9) telephone expense; (10) conversion expense; and (11) other.

The following table presents a summary of noninterest expenses by category, including the percentage change in each category, for the periods indicated:

	<b>Three Months Ended March 31,</b>		<b>Change from the Prior Period</b>
	<b>2019</b>	<b>2018</b>	
Noninterest expense:			
Salaries and employee benefits	7,124	6,858	3.9 %
Occupancy and equipment expenses	1,262	1,236	2.1 %
Professional services	1,041	311	234.7 %
Data processing and network	485	313	55.0 %
Regulatory assessments and insurance	98	255	-61.6 %
Amortization of intangibles	603	176	242.6 %
Advertising	97	115	-15.7 %
Marketing	139	118	17.8 %
Telephone expense	140	98	42.9 %
Conversion expense	1,151	—	100.0 %
Other operating expenses	864	646	33.7 %
<b>Total noninterest expense</b>	<b>\$ 13,004</b>	<b>\$ 10,126</b>	<b>28.4 %</b>

#### *Three months ended March 31, 2019 compared to three months ended March 31, 2018*

For the three months ended March 31, 2019, noninterest expenses totaled \$13.0 million, a \$2.9 million, or 28.4%, increase from \$10.1 million for the prior period. This increase was primarily due to an increase in conversion expense of \$1.2 million, an increase in professional services of \$730 thousand and an increase in the amortization of core deposit intangibles of \$427 thousand.

Conversion expense totaled \$1.2 million for the three months ended March 31, 2019. Conversion expenses related to the data conversion expense and early termination fees of the Comanche acquisition.

Professional services totaled \$1.0 million for the three months ended March 31, 2019 compared to \$311 thousand for the three months ended March 31, 2018. This increase is primarily the result of the merger related expenses for the Comanche acquisition.

Amortization of core deposit intangibles increased \$427 thousand for the three months ended March 31, 2019 compared to March 31, 2018. This is driven by the increase in the core deposit intangible booked for the Comanche acquisition.

#### *Income Tax Expense*

The provision for income taxes includes both federal and state taxes. Fluctuations in effective tax rates reflect the differences in the inclusion or deductibility of certain income and expenses for income tax purposes. Our future effective income tax rate will fluctuate based on the mix of taxable and tax-free investments we make, periodic increases in surrender value of bank-owned life insurance policies for certain former executive officers and our overall taxable income.

#### *Three months ended March 31, 2019 compared to three months ended March 31, 2018*

Income tax expense was \$829 thousand for the three months ended March 31, 2019, an increase of \$338 thousand compared to income tax expense of \$491 thousand for the three months ended March 31, 2018. Our effective tax rates for the three months ended March 31, 2019 and 2018 were 17.9% and 19.6%, respectively, primarily due to a return to provision adjustment recorded during the first quarter of 2019 and non-taxable interest on securities related to the Comanche acquisition.

## Financial Condition

Our total assets increased \$10.4 million, or 0.71%, from \$1.47 billion as of December 31, 2018 to \$1.48 billion as of March 31, 2019.

### Investment Securities

We use our investment securities portfolio to provide a source of liquidity, provide an appropriate return on funds invested, manage interest rate risk, and meet collateral requirements and meet regulatory capital requirements. The average balance of the securities portfolio including FHLB, FRB and The Independent Bankers Bank, or TIB, bank stock for the three months ended March 31, 2019 and 2018 was \$148.0 million and \$41.4 million, respectively, with a pre-tax yield of 3.34% and 2.33%, respectively. We held 189 securities classified as available for sale with an amortized cost of \$128.5 million as of March 31, 2019.

Management evaluates securities for other-than-temporary impairment, or OTTI, at least on a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. No securities were determined to be OTTI as of March 31, 2019 or December 31, 2018.

The following tables show contractual maturities and the weighted average yields on our investment securities as of the dates presented. Expected maturities may differ from contractual maturities because issuers may have the right to call or prepay obligations with or without call or prepayment penalties. Weighted average yields are not presented on a taxable equivalent basis:

(Dollars in thousands)	Maturity as of March 31, 2019							
	One Year or Less		One to Five Years		Five to Ten Years		After Ten Years	
	Amortized Cost	Weighted Average Yield	Amortized Cost	Weighted Average Yield	Amortized Cost	Weighted Average Yield	Amortized Cost	Weighted Average Yield
Available for sale:								
U.S. Government agencies	\$ —	0.00 %	\$ 1,538	2.17 %	\$ 478	2.92 %	\$ —	0.00 %
State and municipal obligations	127	5.16 %	488	4.89 %	757	3.92 %	8,048	4.38 %
Residential mortgage-backed securities	—	0.00 %	73,891	3.52 %	35,372	3.31 %	2,192	3.27 %
Corporate bonds and other debt securities	—	0.00 %	5,144	2.53 %	512	2.86 %	—	0.00 %
Total available for sale	<u>\$ 127</u>	<u>5.16 %</u>	<u>\$ 81,061</u>	<u>3.44 %</u>	<u>\$ 37,119</u>	<u>3.31 %</u>	<u>\$ 10,240</u>	<u>4.14 %</u>

As a member institution of the FHLB, FRB and TIB, the Bank is required to own capital stock in the FHLB, FRB and TIB. As of March 31, 2019 and December 31, 2018, the Bank held approximately \$5.3 million in FHLB, FRB and TIB bank stock. No market exists for this stock, and the Bank's investment can be liquidated only through repurchase by the FHLB, FRB or TIB. Such repurchases have historically been at par value. We monitor our investment in FHLB, FRB and TIB stock for impairment through review of recent financial results, dividend payment history and information from credit agencies. As of March 31, 2019 and December 31, 2018, management did not identify any indicators of impairment of FHLB, FRB and TIB stock.

Except for securities issued by U.S. government agencies, we did not have any concentrations where the total outstanding balances issued by a single issuer exceed 10% of our stockholders' equity as of March 31, 2019 and December 31, 2018.

Our securities portfolio had a weighted average life of 4.97 years and an effective duration of 3.79 years as of March 31, 2019 and a weighted average life of 7.65 years and an effective duration of 5.14 years as of December 31, 2018.

### Loans Held for Sale

Loans held for sale consist of the guaranteed portion of SBA loans that we intend to sell after origination. Our loans held for sale were \$6.3 million as of March 31, 2019 and \$3.9 million as of December 31, 2018.

### Loan Concentrations

Our primary source of income is interest on loans to individuals, professionals, small and medium-sized businesses and commercial companies located in the Houston and Dallas/Fort Worth metropolitan areas. Our loan portfolio consists primarily of commercial and industrial loans, 1-4 single family residential real estate loans and loans secured by commercial real estate properties located in our primary market areas. Our loan portfolio represents the highest yielding component of our earning asset base.

Our total loans held for investment of \$1.12 billion as of March 31, 2019 represented an increase of \$23.1 million, or 2.1%, compared to \$1.09 billion as of December 31, 2018. Our loans as a percentage of assets were 75.5% and 74.5% as of March 31, 2019 and December 31, 2018, respectively.

The current concentrations in our loan portfolio may not be indicative of concentrations in our loan portfolio in the future. We plan to maintain a relatively diversified loan portfolio to help reduce the risk inherent in concentration in certain types of collateral. The following table summarizes the allocation of loans by type as of the dates presented.

(Dollars in thousands)	March 31, 2019		December 31, 2018	
	Amount	% of Total	Amount	% of Total
Commercial and industrial loans (1)	\$ 162,934	14.6%	\$ 173,892	15.9%
Real estate:				
1-4 single family residential loans	280,788	25.2%	275,644	25.2%
Construction, land and development loans	169,919	15.2%	159,734	14.6%
Commercial real estate loans (including multifamily)	418,032	37.5%	397,953	36.4%
Consumer loans and leases	21,631	1.9%	24,378	2.3%
Municipal and other loans	62,691	5.6%	61,339	5.6%
Total loans held in portfolio	\$ 1,115,995	100.0%	\$ 1,092,940	100.0%

(1) Balance includes \$73.5 million and \$76.9 million of the unguaranteed portion of SBA loans as of March 31, 2019 and December 31, 2018, respectively.

#### *Commercial and Industrial Loans (including SBA loans)*

Commercial and industrial loans, including SBA loans, are underwritten after evaluating and understanding the borrower's ability to repay the loan through operating profitably and effectively growing its business. Our management examines current and projected cash flows to determine the ability of the borrower to repay their obligations as agreed. Commercial loans are primarily made based on the credit quality and cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may incorporate a personal guarantee to add strength to the credit and reduce the risk on a transaction to an acceptable level; however, some short-term loans may be made on an unsecured basis to the most credit worthy borrowers.

In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers. Due to the nature of accounts receivable and inventory secured loans, we closely monitor credit availability and collateral through the use of various tools, including but not limited to borrowing-base formulas, periodic accounts receivable agings, periodic inventory audits, and/or collateral inspections.

Commercial and industrial loans, including SBA loans, totaled \$162.9 million as of March 31, 2019 and represented a decrease of \$11.0 million, or 6.3%, from \$173.9 million as of December 31, 2018. The decrease in commercial and industrial loans during the three months ended March 31, 2019 were due to payoffs primarily in the SBA portfolio. We believe we are well-positioned for continued loan growth in our commercial and industrial loan portfolio based on our strategic presence in the Houston and Dallas/Fort Worth metropolitan areas, which are expected to continue to benefit from favorable economic conditions.

The primary focus of our SBA lending program is financing well-known national franchises for which the United States generally will guarantee between 75% and 85% of the loan. We are a SBA preferred lender, and originate SBA loans to national franchises in Texas and nationwide. We routinely sell the guaranteed portion of SBA loans to third parties for a premium and retain the servicing rights, for which we earn a 1% fee, and maintain the nonguaranteed portion in our loan portfolio.

SBA loans held in our loan portfolio totaled \$73.5 million and \$76.9 million at March 31, 2019 and December 31, 2018, respectively. We intend to continue to expand our SBA lending program in the future.

#### *Real estate loans*

##### *1-4 single family residential real estate loans (including loans to foreign nationals)*

1-4 single family residential real estate loans, including foreign national loans, are subject to underwriting standards and processes similar to commercial and industrial loans. We provide mortgages for the financing of 1-4 single family residential homes for primary occupancy, vacation or rental purposes. The borrowers on these loans generally qualify for traditional market financing. We also specialize in 1-4 single family residential real estate loans to foreign national customers, in which the borrower does not qualify for traditional market financing.

We define our foreign national loans as loans to borrowers who derive more than 50% of their personal income from outside the U.S. We provide mortgages for these foreign nationals in Texas for primary occupancy or secondary homes while travelling to the U.S. Because more than 50% of the borrower's income is derived from outside of the U.S., they do not qualify for traditional market financing. We have developed an enhanced due diligence process for foreign national loans that includes larger down payments than a traditional mortgage, as well as minimum reserves equal to an amount of mortgage payments over a specified period held in the Bank and monthly escrows for taxes and insurance.

1-4 single family residential real estate loans (including loans to foreign nationals) totaled \$280.8 million as of March 31, 2019 and represented an increase of \$5.1 million, or 1.9%, from \$275.6 million as of December 31, 2018. We believe we are well-positioned for continued loan growth in our 1-4 single family residential real estate loan portfolio based on our strategic presence in the Houston and Dallas/Fort Worth metropolitan areas, which are expected to continue to benefit from favorable economic conditions.

#### *Construction, land and development loans*

With respect to loans to developers and builders, we generally require the borrower to have a proven record of success and expertise in the building industry. Construction loans are underwritten utilizing feasibility studies, independent appraisal reviews, sensitivity analysis of absorption and lease rates and financial analysis of the developers and property owners. Construction loans are generally based upon estimates of costs and value associated with the complete project. These estimates may be inaccurate. Construction loans often involve the disbursement of substantial funds with repayment primarily dependent on the success of the ultimate project.

Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property or an interim loan commitment from us until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being sensitive to interest rate changes, governmental regulation of real property, general economic conditions and the availability of long-term financing. Due to the nature of the real estate industry, we evaluate the borrower's ability to service the interest of the debt from other sources other than the sale of the constructed property.

Construction loans totaled \$169.9 million as of March 31, 2019 and represented an increase of \$10.2 million, or 6.4%, from \$159.7 million as of December 31, 2018. We believe we are well-positioned for continued loan growth in our construction, land and development loan portfolio based on our strategic presence in the Houston and Dallas/Fort Worth metropolitan areas, which are expected to continue to benefit from favorable economic conditions.

#### *Commercial real estate loans*

Commercial real estate loans are subject to underwriting standards and processes similar to commercial loans. Commercial real estate lending typically involves higher loan principal amounts and the repayment of these loans is generally largely dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan.

Commercial real estate loans may be more adversely affected by conditions in the real estate markets or in the general economy. Management monitors and evaluates commercial real estate loans based on collateral and risk grade criteria. As a general rule, we avoid financing special use projects unless strong secondary support is present to help mitigate risk.

Commercial real estate loans consist of owner and nonowner-occupied commercial real estate loans, multifamily loans and farmland. Total commercial real estate loans of \$418.0 million as of March 31, 2019 represented an increase of \$20.1 million, or 5.0%, from \$398.0 million as of December 31, 2018. We believe we are well-positioned for continued loan growth in our commercial real estate loan portfolio based on our strategic presence in the Houston and Dallas/Fort Worth metropolitan areas, which are expected to continue to benefit from favorable economic conditions.

#### *Consumer loans and leases*

Our non-real estate consumer loans are based on the borrower's proven earning capacity over the term of the loan. We monitor payment performance periodically for consumer loans to identify any deterioration in the borrower's financial strength. To monitor and manage consumer loan risk, management develops and adjusts policies and procedures as needed. This activity, coupled with a relatively small volume of consumer loans, minimizes risk.

All of our leases are related to the financing of vehicle leases to individuals. These loans are originated by a well-known third party leasing company and subsequently purchased by us after our final credit review. We limit our exposure to individuals living in Texas, within our defined local markets.

Consumer loans and leases totaled \$21.6 million as of March 31, 2019 and represented a decrease of \$2.7 million, or 11.3%, from \$24.4 million as of December 31, 2018. We have not actively grown our consumer portfolio because we believe current pricing on these loans does not adequately cover the inherent risk.

#### *Municipal and other loans*

Municipal and other loans consist primarily of loans made to municipalities and emergency service, hospital and school districts as well as agricultural loans.

We make loans to municipalities and emergency service, hospital and school districts primarily throughout Texas. The majority of these loans have tax or revenue pledges and in some cases are additionally supported by collateral. Municipal loans made without a direct pledge of taxes or revenues are usually made based on some type of collateral that represents an essential service. Lending money directly to these municipalities allows us to earn a higher yield for similar durations than we could if we purchased municipal securities. Total loans to municipalities and emergency service, hospital and school districts and others were \$62.7 million as of March 31, 2019 and represented an increase of \$1.4 million, or 2.2%, from \$61.3 million as of December 31, 2018. The growth in municipal and other loans was primarily driven by an increase in agricultural loans in the North Texas region.

#### *Asset Quality*

The following table sets forth the composition of our nonperforming assets, including nonaccrual loans, accruing loans 90 days or more days past due, other real estate owned and repossessed assets and restructured loans as of the dates indicated:

	March 31, 2019	December 31, 2018
(Dollars in thousands)		
Nonperforming assets		
Nonaccrual loans:		
Commercial and industrial loans	\$ 4,272	\$ 3,570
Real estate:		
1-4 single family residential loans	885	1,090
Construction, land and development loans	223	—
Commercial real estate loans (including multifamily)	351	354
Consumer loans and leases	19	17
Municipal and other loans	—	—
Total nonaccrual loans	5,750	5,031
Accruing loans 90 days or more past due	43	288
Total nonperforming loans	5,793	5,319
Other real estate owned and repossessed assets	518	782
Total nonperforming assets	\$ 6,311	\$ 6,101
Restructured loans (1)	\$ 204	\$ 210

(1) Restructured loans represent the balance at the end of the respective period for those performing loans modified in a troubled debt restructuring that are not already presented as a nonperforming loan.

Nonperforming loans totaled \$5.8 million at March 31, 2019, an increase of \$474 thousand, or 8.9%, from \$5.3 million at December 31, 2018. Nonperforming assets totaled \$6.3 million at March 31, 2019, an increase of \$210 thousand, or 3.4%, from \$6.1 million at December 31, 2018.

We classify loans as past due when the payment of principal or interest is greater than 30 days delinquent based on the contractual next payment due date. Our policies related to when loans are placed on nonaccrual status conform to guidelines prescribed by bank regulatory authorities. Loans are placed on nonaccrual status when it is probable that principal or interest is not fully collectible, or when principal or interest becomes 90 days past due, whichever occurs first. Loans are removed from nonaccrual status when they become current as to both principal and interest and concern no longer exists as to the collectability of principal and interest.

Loans are identified for restructuring based on their delinquency status, risk rating downgrade, or at the request of the borrower. Borrowers that are 90 days delinquent and/or have a history of being delinquent, or experience a risk rating downgrade, are contacted to discuss options to bring the loan current, cure credit risk deficiencies, or other potential restructuring options that will reduce the inherent risk and improve collectability of the loan. In some instances, a borrower will initiate a request for loan restructure. We require borrowers to provide current financial information to establish the need for financial assistance and satisfy applicable prerequisite conditions required by us. We may also require the borrower to enter into a forbearance agreement.

Modification of loan terms may include the following: reduction of the stated interest rate; extension of maturity date or other payment dates; reduction of the face amount or maturity amount of the loan; reduction in accrued interest; forgiveness of past-due interest; or a combination of the foregoing.

We engage an external consulting firm to complete an independent loan review and validate our credit risk program on a periodic basis. Results of these reviews are presented to management. The loan review process complements and reinforces the risk ratings and credit quality assessment decisions made by lenders and credit personnel, as well as our policies and procedures.

The following table sets forth our asset and credit quality ratios for the periods presented:

	March 31, 2019	December 31, 2018
<b>Asset and Credit Quality Ratios</b>		
Nonperforming loans to loans held for investment (1)	0.52 %	0.49 %
Nonperforming assets to loans plus OREO	0.57 %	0.56 %
Nonperforming assets to total assets (2)	0.43 %	0.42 %
Net charge-offs to average loans (annualized)(3)	0.21 %	0.16 %
Allowance for loan losses to nonperforming loans	113.40 %	118.18 %
Allowance for loan losses to loans held for investment	0.59 %	0.58 %
Allowance for loan losses to organic loans(4)	0.65 %	0.64 %

- (1) Nonperforming loans include loans in nonaccrual status.  
(2) Nonperforming assets include loans in nonaccrual status and other real estate owned.  
(3) December 31, 2018 ratio uses year to date net charge-offs.  
(4) Organic loans exclude loans acquired through a business combination.

*Analysis of the Allowance for Loan and Lease Losses*

Allowance for loan and lease losses reflects management's estimate of probable credit losses inherent in the loan portfolio. The computation of the allowance for loan and lease losses includes elements of judgment and high levels of subjectivity.

The following tables summarize the allocation of allowance for loan and lease losses related to our loans as of the dates and for the periods presented. This allocation is calculated on an approximate basis and is not necessarily indicative of future losses or allocations. The entire amount of the allowance is available to absorb losses occurring in any category of loans:

Three Months Ended March 31, 2019	Allowance Rollforward				
	Beginning Balance	Charge-offs	Recoveries	Provision	Ending Balance
	(Dollars in thousands)				
Commercial and industrial loans	\$ 4,453	\$ (578)	\$ 28	\$ 758	\$ 4,661
Real estate:					
1-4 single family residential loans	59	—	—	(25)	34
Construction, land and development loans	731	—	—	18	749
Commercial real estate loans (including multifamily)	960	—	—	97	1,057
Consumer loans and leases	80	(18)	2	(7)	57
Municipal and other loans	3	—	—	8	11
Ending allowance balance	<u>\$ 6,286</u>	<u>\$ (596)</u>	<u>\$ 30</u>	<u>\$ 849</u>	<u>\$ 6,569</u>

Three Months Ended March 31, 2018	Allowance Rollforward				
	Beginning Balance	Charge-offs	Recoveries	Provision	Ending Balance
	(Dollars in thousands)				
Commercial and industrial loans	\$ 3,046	\$ (324)	\$ 66	\$ 118	\$ 2,906
Real estate:					
1-4 single family residential loans	902	—	—	(15)	887
Construction, land and development loans	441	—	—	99	540
Commercial real estate loans (including multifamily)	898	—	—	134	1,032
Consumer loans and leases	198	(6)	—	(17)	175
Municipal and other loans	167	—	—	20	187
Ending allowance balance	<u>\$ 5,652</u>	<u>\$ (330)</u>	<u>\$ 66</u>	<u>\$ 339</u>	<u>\$ 5,727</u>

In determining the allowance for loan and lease losses, we estimate losses on specific loans, or groups of loans, where the probable loss can be identified and reasonably determined. The balance of the allowance for loan and lease losses is based on internally assigned risk classifications of loans, historical loan loss rates, changes in the nature of the loan portfolio, overall portfolio quality, industry concentrations, delinquency trends, current economic factors and the estimated impact of current economic conditions on certain historical loan loss rates.

Prior to the second quarter of 2018, we were utilizing a peer bank allowance coverage ratio in the qualitative reserve calculation, as we did not have enough historical defaults to rely on our own loss factors. Beginning the second quarter of 2018, we had a sufficient amount of defaults over the five year lookback period to transition over to relying more on our own historical loss data versus peer data. While this did not result in a significant change to the allowance for loan and lease losses as a whole, it continues to impact the provision for certain loan categories that we had experienced more historical defaults.

On November 14, 2018, the Company closed its acquisition of Comanche. At the date of acquisition, Comanche had \$117.2 million in loans. In accordance with ASC 805 Business Combinations, the Company utilized a third party to value the loan portfolio as of the acquisition date. Based upon the third party valuation, the fair value of the loans was approximately \$116.2 million at the acquisition date. The overall discount calculated was \$946 thousand and will be accreted into interest income over the life of the loans.

As of March 31, 2019, all purchased loans were excluded from the allowance for loan and lease losses calculation given there was no deterioration between the acquisition date and the end of the first quarter of 2019. Purchased credit impaired loans were insignificant. Going forward, management will evaluate the remaining credit quality, credit discount and charge-offs associated with these purchased loans to determine if an additional allowance is deemed necessary.

The allowance for loan and lease losses increased to \$6.6 million at March 31, 2019 as compared to \$6.3 million at December 31, 2018. The allowance for loan and lease losses as a percentage of nonperforming loans and allowance for loan and lease losses as a percentage of loans held for investment was 113.40% and 0.59%, respectively, as of March 31, 2019, compared to 118.18% and 0.58%, respectively, as of December 31, 2018.

Net loan charge-offs for the three months ended March 31, 2019 totaled \$566 thousand, an increase from \$264 thousand of net loan charge-offs for the same period of 2018.

The following table provides the allocation of the allowance for loan and lease losses as of the dates presented:

	March 31, 2019		December 31, 2018	
	Amount	% Loans in each category	Amount	% Loans in each category
	(Dollars in thousands)			
Commercial and industrial loans	\$ 4,661	14.6 %	\$ 4,453	15.9 %
Real estate:				
1-4 single family residential loans	34	25.2 %	59	25.2 %
Construction, land and development loans	749	15.2 %	731	14.6 %
Commercial real estate loans (including multifamily)	1,057	37.5 %	960	36.4 %
Consumer loans and leases	57	1.9 %	80	2.3 %
Municipal and other loans	11	5.6 %	3	5.6 %
Total	<u>\$ 6,569</u>	<u>100.0 %</u>	<u>\$ 6,286</u>	<u>100.0 %</u>

#### Deposits

We expect deposits to be our primary funding source in the future as we optimize our deposit mix by continuing to shift our deposit composition from higher cost time deposits to lower cost demand deposits. Non-time deposits include noninterest-bearing and interest-bearing demand deposits, NOW accounts, and savings and money market accounts.

The following table shows the deposit mix as of the dates presented:

	March 31, 2019		December 31, 2018	
	Amount	% of Total	Amount	% of Total
	(Dollars in thousands)			
Noninterest-bearing demand deposits	\$ 258,440	21.5 %	\$ 256,784	21.7 %
Interest-bearing demand deposits	127,182	10.6 %	124,933	10.6 %
Interest-bearing NOW accounts	7,509	0.6 %	7,961	0.7 %
Savings and money market accounts	228,635	19.0 %	245,928	20.8 %
Time deposits	581,486	48.3 %	547,042	46.2 %
Total deposits	<u>\$ 1,203,252</u>	<u>100.0 %</u>	<u>\$ 1,182,648</u>	<u>100.0 %</u>

Total deposits at March 31, 2019 were \$1.20 billion, an increase of \$20.6 million, or 1.7%, from total deposits at December 31, 2018 of \$1.18 billion.

The average cost of deposits for the three months ended March 31, 2019 was 1.05%. This represents an increase of 20 basis points compared to the average cost of deposits of 0.85% for the three months ended March 31, 2018. The increase in cost of deposits was primarily attributable to the increase in interest rates by the Federal Open Market Committee during 2018. For the three months ended March 31, 2019, the average rate paid on time deposits was 1.78% compared to 1.35% for the three months ended March 31, 2018.

The following table shows the remaining maturity of time deposits of \$100,000 and greater as of the date indicated:

	March 31, 2019	
	(Dollars in thousands)	
Time deposits \$100,000 or greater with remaining maturity of:		
Three months or less	\$	76,168
After three months through six months		94,427
After six months through twelve months		176,850
After twelve months		112,303
Total	<u>\$</u>	<u>459,748</u>

#### Borrowings

In addition to deposits, we utilize advances from the FHLB and other borrowings as a supplementary funding source to finance our operations.

*FHLB borrowings:* The FHLB allows us to borrow, both short and long-term, on a blanket floating lien status collateralized by certain securities and loans. As of March 31, 2019 and December 31, 2018, total remaining borrowing capacity of \$431.7 million and \$292.3 million, respectively, was available under this arrangement.

*Line of credit:* We entered into a line of credit with a third party lender in May 2017 that allows us to borrow up to \$20 million. In January 2019, we increased this line of credit to allow us to borrow up to \$40 million. The interest rate on this line of credit is based upon 90-day LIBOR plus 4.0%, and unpaid principal and interest is due at the stated maturity of May 12, 2022. This line of credit is secured by a pledge of all of the common stock of the Bank. This line of credit may be prepaid at any time without penalty, so long as such prepayment includes the payment of all interest accrued through the date of the repayments, and, in the case of prepayment of the entire loan, the amount of attorneys' fees and disbursements of the lender. At March 31, 2019, total borrowing capacity of \$40.0 million was available under this line of credit.

Total borrowings consisted of the following as of the dates presented:

	March 31, 2019		December 31, 2018	
	(Dollars in thousands)			
Short-term FHLB borrowings	\$	—	\$	12,500
Long-term FHLB borrowings		65,676		65,105
Trust preferred securities		—		2,811
Total borrowings	<u>\$</u>	<u>65,676</u>	<u>\$</u>	<u>80,416</u>

At March 31, 2019, total borrowings were \$65.7 million, a decrease of \$14.7 million, or 18.3%, from \$80.4 million at December 31, 2018.

Short-term borrowings consist of debt with maturities of one year or less. Our short-term borrowings consist of FHLB borrowings and a third party line of credit. The following table is a summary of short-term borrowings as of and for the periods presented:

	As of/For the Three Months Ended March 31,	
	2019	2018
	(Dollars in thousands)	
Short-term borrowings:		
Maximum outstanding at any month-end during the period	\$	\$ 15,000
Balance outstanding at end of period		15,000
Average outstanding during the period		1,111
Average interest rate during the period		2.42 %
Average interest rate at the end of the period		0.00 %

#### *Stockholders' Equity*

The following table summarizes the changes in our stockholders' equity for the periods indicated:

	Three Months Ended March 31,	
	2019	2018
	(Dollars in thousands)	
Balance at beginning of period	\$ 198,796	\$ 99,139
Net income	3,810	2,013
Exercise of stock options and warrants	1,103	2,185
Stock-based compensation	117	152
Other comprehensive income (loss)	150	(510)
Balance at end of period	\$ 203,976	\$ 102,979

Net income totaled \$3.8 million for the three months ended March 31, 2019, an increase of \$1.8 million, compared to \$2.0 million for the three months ended March 31, 2018. Our results of operations for the three months ended March 31, 2019 produced an annualized return on average assets of 1.06% compared to 0.79% for the three months ended March 31, 2018. Our results of operations for the three months ended March 31, 2019 produced an annualized return on average stockholders' equity of 7.65% compared to 8.09% for the three months ended March 31, 2018.

Stockholders' equity was \$204.0 million as of March 31, 2019, an increase of \$5.2 million from \$198.8 million as of December 31, 2018. The increase was primarily driven by net income of \$3.8 million and the exercise of stock options and warrants of \$1.1 million during the period.

#### *Off-Balance Sheet Arrangements*

In the normal course of business, we enter into various transactions, which, in accordance with U.S. Generally Accepted Accounting Principles ("GAAP"), are not included on our consolidated balance sheets. We enter into these transactions to meet the financing needs of our customers. These transactions include commitments to extend credit and commercial and standby letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized on our consolidated balance sheets.

We enter into contractual loan commitments to extend credit, normally with fixed expiration dates or termination clauses, at specified rates and for specific purposes. Since a portion of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent our future cash requirements. Substantially all of our commitments to extend credit are contingent upon customers maintaining specific credit standards until the time of loan funding. We seek to minimize our exposure to loss under these commitments by subjecting them to prior credit approval and ongoing monitoring procedures. We assess the credit risk associated with certain commitments to extend credit and establish a liability for probable credit losses. As of March 31, 2019 and December 31, 2018, our reserve for unfunded commitments totaled \$20 thousand and \$48 thousand, respectively.

Commercial and standby letters of credit are written conditional commitments issued by us to guarantee the performance of a customer to a third party. In the event the customer does not perform in accordance with the terms of the agreement with the third party, we would be required to fund the commitment. The maximum potential amount of future payments we could be required to make is represented by the contractual amount of the commitment. If the commitment is funded, we would be entitled to seek recovery from the customer. Our policies generally require that standby letter of credit arrangements contain security and debt covenants similar to those contained in loan agreements.

The following table summarizes our commitments as of the dates presented:

	March 31, 2019	December 31, 2018
	(Dollars in thousands)	
Unfunded loan commitments	\$ 187,227	\$ 176,156
Commercial and standby letters of credit	596	547
<b>Total</b>	<b>\$ 187,823</b>	<b>\$ 176,703</b>

Management believes that we have adequate liquidity to meet all known contractual obligations and unfunded commitments, including loan commitments over the next twelve months. Additionally, management believes that our off-balance sheet arrangements have not had or are not reasonably likely to have a current or future material effect on our financial condition, revenues, expenses, results of operations, liquidity, capital expenditures or capital resources.

#### *Capital Resources*

We are required to comply with certain “risk-based” capital adequacy guidelines issued by the Board of Governors of the Federal Reserve System (the “FRB”) and the Federal Deposit Insurance Corporation (the “FDIC”). The risk-based capital guidelines assign varying risk weights to the individual assets held by a bank. The guidelines also assign weights to the “credit-equivalent” amounts of certain off-balance sheet items, such as letters of credit and interest rate and currency swap contracts.

Under the Basel III rules, we are required to maintain a leverage ratio of 4.0% (5.0% to be considered “well capitalized”), common equity tier 1 capital to risk-weighted assets ratio of 4.5% (6.5% to be considered “well capitalized”), a tier 1 capital to risk-weighted assets ratio of 6.0% (8.0% to be considered “well capitalized”), and a total capital to risk-weighted assets ratio of 8.0% (10.0% to be considered “well capitalized”). In addition, the risk-weighted capital ratios include a capital conservation buffer of 2.5%, which is in addition to the minimum risk-based capital standards. Institutions that do not maintain this required capital conservation buffer will become subject to progressively more stringent limitations on the percentage of earnings that can be paid out in dividends or used for stock repurchases and on the payment of discretionary bonuses to senior executive management. The capital conservation buffer was phased in over four years beginning in 2016, such that the buffer was fully phased-in as of January 1, 2019. We have included the 1.875% and 2.5% increases for 2018 and 2019, respectively, in our minimum capital adequacy ratios in the table below. The capital conservation buffer effectively raised the minimum required common equity tier 1 capital ratio to 7.0%, the tier 1 capital ratio to 8.5%, and the total capital ratio to 10.5% on a fully phased-in basis on January 1, 2019.

The risk-based capital ratios measure the adequacy of a bank’s capital against the riskiness of its assets and off-balance sheet activities. Failure to maintain adequate capital is a basis for “prompt corrective action” or other regulatory enforcement action. In assessing a bank’s capital adequacy, regulators also consider other factors such as interest rate risk exposure; liquidity, funding and market risks; quality and level of earnings; concentrations of credit, quality of loans and investments; risks of any nontraditional activities; effectiveness of bank policies; and management’s overall ability to monitor and control risks.

The following table sets forth the regulatory capital ratios, excluding the impact of the capital conservation buffer, as of the dates indicated:

	Minimum Capital Requirement	Minimum Capital Requirement with Capital Buffer	Minimum To Be Well Capitalized	March 31, 2019 Actual	December 31, 2018 Actual
<b>Capital ratios (Company):</b>					
Tier 1 leverage ratio	4.0%	4.0%	N/A	12.06%	12.11%
Common equity tier 1 capital ratio	4.5%	7.0%	N/A	14.89%	14.56%
Tier 1 risk-based capital ratio	6.0%	8.5%	N/A	14.89%	14.81%
Total risk-based capital ratio	8.0%	10.5%	N/A	15.46%	15.37%
<b>Capital ratios (Bank):</b>					
Tier 1 leverage ratio	4.0%	4.0%	5.0%	10.27%	11.04%
Common equity tier 1 capital ratio	4.5%	7.0%	6.5%	12.68%	12.38%
Tier 1 risk-based capital ratio	6.0%	8.5%	8.0%	12.68%	12.38%
Total risk-based capital ratio	8.0%	10.5%	10.0%	13.25%	12.94%

At March 31, 2019, both we and the Bank met all the capital adequacy requirements to which we and the Bank were subject. At March 31, 2019, the Bank was “well capitalized” under the regulatory framework for prompt corrective action. Management believes that no conditions or events have occurred since March 31, 2019 that would materially adversely change such capital classifications. From time to time, we may need to raise additional capital to support our and the Bank’s further growth and to maintain the Bank’s “well capitalized” status.

As of March 31, 2019, we had a tier 1 leverage ratio of 12.06%. As of March 31, 2019, the Bank had a tier 1 leverage ratio of 10.27%, which provided \$75.3 million of excess capital relative to the minimum requirements to be considered “well capitalized.”

#### *Liquidity*

Liquidity involves our ability to raise funds to support asset growth and acquisitions or reduce assets to meet deposit withdrawals and other payment obligations, to maintain reserve requirements and otherwise to operate on an ongoing basis and manage unexpected events. At March 31, 2019 and December 31, 2018, our liquidity needs were primarily met by core deposits, security and loan maturities and amortizing investment and loan portfolios. Although access to brokered deposits, purchased funds from correspondent banks and overnight advances from the FHLB are available and have been utilized on occasion to take advantage of investment opportunities, we do not generally rely on these external funding sources. The Bank maintained four Federal Funds lines of credit with commercial banks which provide for extensions of credit with an availability to borrow up to an aggregate \$35.0 million as of March 31, 2019 and December 31, 2018. There were no advances under these lines of credit outstanding as of March 31, 2019 or December 31, 2018.

Our primary source of funds is deposits, and our primary use of funds is loans. We do not expect a change in the primary source or use of our funds in the foreseeable future. We predominantly invest excess deposits in overnight deposits with the Federal Reserve, securities, interest-bearing deposits at other banks or other short-term liquid investments until needed to fund loan growth. Our securities portfolio had a weighted average life of 4.97 years and an effective duration of 3.79 years as of March 31, 2019.

As of March 31, 2019, we had outstanding \$187.2 million in commitments to extend credit and \$569 thousand in commitments associated with outstanding commercial and standby letters of credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the total outstanding may not necessarily reflect the actual future cash funding requirements.

As of March 31, 2019, we believe we had no exposure to future cash requirements associated with known uncertainties. Capital expenditures, including buildings and construction in process, for the three months ended March 31, 2019 and 2018 were \$1.1 million and \$1.2 million, respectively.

## Non-GAAP Financial Measures

Our accounting and reporting policies conform to GAAP, and the prevailing practices in the banking industry. However, we also evaluate our performance based on certain additional financial measures discussed in this Form 10-Q as being a non-GAAP financial measures. We classify a financial measure as being a non-GAAP financial measure if that financial measure excludes or includes amounts, or is subject to adjustments that have the effect of excluding or including amounts, that are included or excluded, as the case may be, in the most directly comparable measure calculated and presented in accordance with GAAP as in effect from time to time in the United States in our statements of income, balance sheets or statements of cash flows. Non-GAAP financial measures do not include operating and other statistical measures or ratios or statistical measures calculated using exclusively financial measures calculated in accordance with GAAP.

The non-GAAP financial measures that we discuss in this Form 10-Q should not be considered in isolation or as a substitute for the most directly comparable or other financial measures calculated in accordance with GAAP. Moreover, the manner in which we calculate the non-GAAP financial measures that we discuss in this Form 10-Q may differ from that of other banking organizations reporting measures with similar names. You should understand how such other banking organizations calculate their financial measures similar or with names similar to the non-GAAP financial measures we have discussed in this prospectus when comparing such non-GAAP financial measures.

### *Net Interest Margin*

We show net interest margin on a fully taxable equivalent basis, which is a non-GAAP financial measure.

We believe the fully tax equivalent basis is the preferred industry measurement basis for net interest margin and that it enhances comparability of net interest income arising from taxable and tax-exempt sources.

The following table reconciles, as of the dates set forth below, net interest margin on a fully taxable equivalent basis:

	As of or for the	
	Three Months Ended March 31,	
	2019	2018
	(Dollars in thousands, except per share data)	
<b>Net interest margin - GAAP basis:</b>		
Net interest income	\$ 15,435	\$ 10,381
Average interest-earning assets	1,346,104	953,749
Net interest margin	4.65 %	4.41 %
<b>Net interest margin - Non-GAAP basis:</b>		
Net interest income	\$ 15,435	\$ 10,381
Plus:		
Impact of fully taxable equivalent adjustment	138	116
Net interest income on a fully taxable equivalent basis	<u>\$ 15,573</u>	<u>\$ 10,497</u>
Average interest-earning assets	1,346,104	953,749
Net interest margin on a fully taxable equivalent basis - Non-GAAP basis	4.69 %	4.46 %

### *Adjusted Earnings per Common Share – Basic and Diluted*

Adjusted earnings per common share – basic and diluted is a non-GAAP financial measure that excludes merger related expenses. In our judgment, the adjustments made to net income allow investors and analysts to better assess our basic and diluted earnings per common share by removing the volatility that is associated with merger related expenses and gain/loss on the sale of investment securities that are unrelated to our core business.

Merger related expenses for the three months ended March 31, 2019 consisted of \$1.4 million of after-tax merger related expenses and a \$1.1 million gain on sales of investment securities. There were no merger related expenses or gain on sales of investment securities for the three months ended March 31, 2018.

The following table reconciles, as of the date set forth below, basic and diluted earnings per common share and presents our basic and diluted earnings per common share exclusive of the impact of our merger related adjustments:

	As of or for the Three Months Ended March 31,	
	2019	2018
(Dollars in thousands, except per share data)		
<b>Basic and diluted earnings per share - GAAP basis:</b>		
Net income available to common stockholders	\$ 3,810	\$ 2,013
Weighted average number of common shares - basic	12,152,558	7,348,992
Weighted average number of common shares - diluted	12,607,445	7,543,606
Basic earnings per common share	\$ 0.31	\$ 0.27
Diluted earnings per common share	\$ 0.30	\$ 0.27
<b>Basic and diluted earnings per share - Non-GAAP basis:</b>		
Net income available to common stockholders	\$ 3,810	\$ 2,013
Pre-tax adjustments:		
Noninterest income		
Gain on the sales of investment securities	\$ (1,081)	—
Noninterest expense		
Merger related expenses	1,778	—
Taxes:		
Tax effect of adjustments	(373)	—
Adjusted net income	\$ 4,134	\$ 2,013
Weighted average number of common shares - basic	12,152,558	7,348,992
Weighted average number of common shares - diluted	12,607,445	7,543,606
Basic earnings per common share - Non-GAAP basis	\$ 0.34	\$ 0.27
Diluted earnings per common share - Non-GAAP basis	\$ 0.33	\$ 0.27

#### *Tangible Book Value Per Share*

Tangible book value per share is a non-GAAP financial measure generally used by investors, financial analysts and investment bankers to evaluate financial institutions. We calculate (1) tangible book value per share as tangible equity divided by shares of common stock outstanding at the end of the respective period, and (2) tangible equity as common stockholders' equity less goodwill and other intangible assets, net of accumulated amortization. The most directly comparable GAAP financial measure for tangible book value per share is book value per share.

We believe that this measure is important to many investors in the marketplace who are interested in changes from period to period in book value per share exclusive of changes in intangible assets. Goodwill and other intangible assets have the effect of increasing total book value while not increasing our tangible book value.

The following table reconciles, as of the dates set forth below, total stockholders' equity to tangible equity and presents our tangible book value per share compared to our book value per share:

	March 31, 2019	December 31, 2018
	(Dollars in thousands, except per share data)	
Total stockholders' equity	\$ 203,976	\$ 198,796
Less:		
Goodwill and other intangible assets	26,207	26,811
Tangible stockholders' equity	\$ 177,769	\$ 171,985
Shares outstanding	12,195,891	12,103,753
Book value per share	\$ 16.72	\$ 16.42
Less:		
Goodwill and other intangible assets per share	2.14	2.21
Tangible book value per share	\$ 14.58	\$ 14.21

## Critical Accounting Policies

Our financial reporting and accounting policies conform to GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Our accounting policies and estimates are described in greater detail in Note 1 Summary of Significant Accounting Policies in the notes to our consolidated financial statements included elsewhere in this Form 10-Q.

We have identified the following accounting policies and estimates that, due to the difficult, subjective or complex judgments and assumptions inherent in those policies and estimates and the potential sensitivity of our financial statements to those judgments and assumptions, are critical to an understanding of our financial condition and results of operations. We believe that the judgments, estimates and assumptions used in the preparation of our financial statements are appropriate. Our accounting policies are integral to understanding our results of operations.

### *Allowance for Loan and Lease Losses*

Management's ongoing evaluation of the adequacy of the allowance for loan and lease losses is based on our past loan loss experience, the volume and composition of our lending, adverse situations that may affect a borrower's ability to repay, the estimated value of any underlying collateral, current economic conditions and other factors affecting the known and inherent risk in the portfolio. The allowance for loan and lease losses is increased by charges to income through the provision for loan and lease losses and decreased by charge-offs (net of recoveries). The allowance is maintained at a level that management, based upon its evaluation, considers adequate to absorb losses inherent in the loan portfolio. This evaluation is inherently subjective as it requires material estimates including, among others, the amount and timing of expected future cash flows on impacted loans, exposure at default, value of collateral, and estimated losses on our loan portfolio. All of these estimates may be susceptible to significant change.

The allowance consists of specific allowances for impaired loans and a general allowance on the remainder of the portfolio. Although management determines the amount of each element of the allowance separately, the allowance for loan and lease losses is available for the entire loan portfolio.

Management establishes an allowance on certain impaired loans for the amount by which the discounted cash flows, observable market price, or fair value of collateral if the loan is collateral dependent, is lower than the carrying value of the loan. A loan is considered to be impaired when, based upon current information and events, it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan. A delay or shortfall in amount of payments does not necessarily result in the loan being identified as impaired.

Management also establishes a general allowance on non-impaired loans to recognize the inherent losses associated with lending activities, but which, unlike specific allowances, have not been allocated to particular loans. This general valuation allowance is determined by segregating the loans by loan category and assigning allowance percentages based on our historical loss experience, delinquency trends, and management's evaluation of the collectability of the loan portfolio.

Management also evaluates classified loans, which are not impaired. We segregate these loans by category and assign qualitative factors to each loan based on inherent losses associated with each type of lending and consideration that these loans, in the aggregate, represent an above-average credit risk and that more of these loans will prove to be uncollectible compared to loans in the general portfolio. Classification of a loan within this category is based on identified weaknesses that increase the credit risk of the loan.

The allowance is adjusted for significant factors that, in management's judgment, affect the collectability of the portfolio as of the evaluation date. These significant factors may include changes in lending policies and procedures, changes in existing general economic and business conditions affecting its primary lending areas, credit quality trends, collateral value, loan volumes and concentrations, seasoning of the loan portfolio, loss experience in particular segments of the portfolio, duration of the current business cycle, and bank regulatory examination results. The applied loss factors are re-evaluated each reporting period to ensure their relevance in the current economic environment.

Prior to the second quarter of 2018, we were utilizing a peer bank allowance coverage ratio in the qualitative reserve calculation, as we did not have enough historical defaults to rely on our own loss factors. Beginning the second quarter of 2018, we had a sufficient amount of defaults over the five year lookback period to transition over to relying more on our own historical loss data versus peer data. While this did not result in a significant change to the allowance for loan and lease losses as a whole, it continues to impact the provision for certain loan categories that the Company had experienced more historical defaults.

While management uses the best information known to it in order to make loan loss allowance valuations, adjustments to the allowance may be necessary based on changes in economic and other conditions, changes in the composition of the loan portfolio, or changes in accounting guidance. In times of economic slowdown, either regional or national, the risk inherent in the loan portfolio could increase resulting in the need for additional provisions to the allowance for loan and lease losses in future periods. An increase could also be necessitated by an increase in the size of the loan portfolio or in any of its components even though the credit quality of the overall portfolio may be improving. Historically, the estimates of the allowance for loan and lease losses have provided adequate coverage against actual losses incurred.

#### *Goodwill and Other Intangible Assets*

Goodwill represents the excess of consideration transferred in business combinations over the fair value of tangible and identifiable intangible assets acquired. Goodwill is assessed annually for impairment or more frequently if events or circumstances indicate that impairment may have occurred.

Goodwill acquired in a purchase business combination that is determined to have an indefinite useful life, is not amortized, but tested for impairment as described above. We perform our annual impairment test in the fourth quarter. Goodwill is the only intangible asset with an indefinite life on our balance sheet.

Core deposit intangible ("CDI") is a measure of the value of checking and savings deposit relationships acquired in a business combination. The fair value of the CDI stemming from any given business combination is based on the present value of the expected cost savings attributable to the core deposit funding relative to an alternative source of funding. CDI is amortized over the estimated useful lives of the existing deposit relationships acquired, but does not exceed 12 years. We evaluate such identifiable intangibles for impairment when events and circumstances indicate that its carrying amount may not be recoverable.

#### *Income Taxes*

Management makes estimates and judgments to calculate various tax liabilities and determine the recoverability of various deferred tax assets, which arise from temporary differences between the tax and financial statement recognition of revenues and expenses. Management also estimates a reserve for deferred tax assets if, based on the available evidence, it is more likely than not that some portion or all of the recorded deferred tax assets will not be realized in future periods. These estimates and judgments are inherently subjective. Historically, management's estimates and judgments to calculate the deferred tax accounts have not required significant revision.

In evaluating our ability to recover deferred tax assets, management considers all available positive and negative evidence, including the past operating results and forecasts of future taxable income. In determining future taxable income, management makes assumptions for the amount of taxable income, the reversal of temporary differences and the implementation of feasible and prudent tax planning strategies. These assumptions require management to make judgments about the future taxable income and are consistent with the plans and estimates used to manage the business. Any reduction in estimated future taxable income may require management to record a valuation allowance against the deferred tax assets. An increase in the valuation allowance would result in additional income tax expense in the period and could have a significant impact on future earnings.

#### *Stock-based Compensation*

We sponsor incentive stock option plans under which options may be granted periodically to all of our full-time employees and directors or affiliates at a specific exercise price to acquire shares of our common stock. Shares are issued out of authorized unissued common shares. Compensation cost is measured based on the estimated fair value of the award at the grant date and is recognized in earnings on a straight-line basis over the requisite service period. The fair value of stock options is estimated at the date of grant using the Black-Scholes option pricing model. This model requires assumptions as to the expected stock volatility, dividends, terms and risk-free rates. We use the fair value method to account for our options. The expected volatility is based on the volatility of comparable peer banks. The expected term represents the period of time that options are expected to be outstanding from the grant date. The risk-free interest rate is based on the U.S. Treasury yield curve in effect at the time of grant for the appropriate life of each option.

#### *SBA Servicing Asset*

A servicing asset related to SBA loans is initially recorded when these loans are sold and the servicing rights are retained. The servicing asset is recorded on the balance sheet. An updated fair value of the servicing asset is obtained from an independent third party on a quarterly basis and any necessary adjustments are included in SBA loan servicing fees on the consolidated statements of income. The valuation begins with the projection of future cash flows for each asset based on their unique characteristics, market-based assumptions for prepayment speeds and estimated losses and recoveries. The present value of the future cash flows are then calculated utilizing market-based discount ratio assumptions. In all cases, we model expected payments for every loan for each

quarterly period in order to create the most detailed cash flow stream possible. We use various assumptions and estimates in determining the impairment of the SBA servicing asset. These assumptions include prepayment speeds and discount rates commensurate with the risks involved and comparable to assumptions used by participants to value and bid serving rights available for sale in the market.

#### **Recently Issued Accounting Pronouncements**

See Note 1, Summary of Significant Accounting Policies, in the notes to the consolidated financial statements included elsewhere in this Form 10-Q regarding the impact of new accounting pronouncements which we have adopted.

#### **Item 3. Quantitative and Qualitative Disclosure about Market Risk**

As described in more detail in our Annual Report on Form 10-K for the year ended December 31, 2018, risk management involves the monitoring and evaluation of interest rate risk, liquidity risk, operational risk, compliance risk and strategic and/or reputation risk. The Company has not experienced any material change in these risks from December 31, 2018 to March 31, 2019. For additional disclosure of our market risks, see our Annual Report on Form 10-K for the year ended December 31, 2018.

#### **Item 4. Controls and Procedures**

##### *Evaluation of Disclosure Controls and Procedures*

As of the end of the period covered by this Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the "Exchange Act) were effective as of the end of the period covered by this Form 10-Q.

##### *Internal Control over Financial Reporting*

There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the three months ended March 31, 2019 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II. OTHER INFORMATION**

**Item 1. Legal Proceedings**

The Company, from time to time, is involved as plaintiff or defendant in various legal actions arising in the normal course of business. While the ultimate outcome of any such proceedings cannot be predicted with certainty, it is the opinion of management, based upon advice of legal counsel, that no proceedings exist, either individually or in the aggregate, which, if determined adversely to the Company, would have a material effect on the Company's consolidated balance sheet, results of operations or cash flows. See Note 13 "Commitments and Contingencies" in the "Notes to Consolidated Financial Statements."

**Item 1A. Risk Factors**

In evaluating an investment in any of our securities, investors should consider carefully, among other things, information under the heading "Cautionary Note Regarding Forward-Looking Statements" in this Form 10-Q, the risk factors previously disclosed under the heading "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2018, and such other risk factors as we may disclose in other reports and statements filed with the SEC. There have been no material changes in the risk factors disclosed by the Company in its Annual Report on Form 10-K for the year ended December 31, 2018.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

None.

**Item 3. Defaults upon Senior Securities**

Not applicable.

**Item 4. Mine Safety Disclosures**

Not applicable.

**Item 5. Other Information**

None.

**Item 6. Exhibits**

**CERTIFICATION PURSUANT TO  
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Dean O. Bass, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Spirit of Texas Bancshares, Inc. for the quarter ended March 31, 2019;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - (b) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - (c) Disclosed in this report any change in the registrant's internal control over financial reporting (as defined in the Exchange Act Rules 13a-15(f) and 15d-15(f)) that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
